How to use this manual

This manual explains, step by step, how to use the SACOR system. It is divided into six parts: three for the roles that use the mobile app, one for the website, one for the desktop app and one for the WhatsApp assistant. The **colored tab** on the right edge takes you quickly to each part.

Part 1 · Driver MOBILE APP
Check your trips, clock in and record the information and evidence of each route. — p. 4

Part 2 · Technician MOBILE APP
Record the collection work of each trip: tons per material, expenses and notes. — p. 11

Part 3 · Technical Administrator MOBILE APP
Organize contracts and trips, assign staff and trucks, and register employees and external services. — p. 14

Part 4 · Website PUBLIC WEBSITE
Learn about SACOR, request a quote and apply to work at the company. — p. 22

Part 5 · Accounting Administration DESKTOP APP
Manage employees, weighing records, accounting, customers, contracts, trips, extra trips and web requests. — p. 28

Part 6 · WhatsApp Assistant WHATSAPP CHAT
Request a quote at any time by chatting with the SACOR virtual assistant on WhatsApp. — p. 40

How to read each page

☆ Task — Each procedure is presented as a **task** with its steps in order.

1 — The **numbers on the screenshot** match the steps in the list.

Guardar — Highlighted text shows **buttons or options** exactly as they appear on screen (in Spanish), followed by their English meaning.

Tip: a recommendation to make the task easier.

Caution!: something important to avoid mistakes.

Note: additional information about the screen.

Before you start

Authorized access

You sign in to the mobile app with the personal code given by the administrator.

Central server

All the apps share a central database; the server must be online.

Suitable equipment

A phone with the SACOR app and WhatsApp, a Windows computer and a web browser.

Contents

Part 1 · Driver — Mobile app

1	Sign in to the app	5
2	Get to know your home screen	6
3	Clock in for your shift	7
4	Check your trip calendar	8
5	Record additional information	9
6	Record evidence	10

Part 2 · Technician — Mobile app

1	Record a collection	12
2	Review the history by trip	13

Part 3 · Technical Administrator — Mobile app

1	Get to know the main panel	15
2	Review contracts and trips	16
3	Assign staff and truck	17
4	Create an extra trip	18
5	Register an employee	19
6	Manage employees	20
7	Register external services	21

Part 6 · WhatsApp Assistant — WhatsApp

1	Start a chat with the assistant	41
2	Enter your contact details	42
3	Choose the service and the place	43
4	Add materials, date and details	44
5	Review and send your request	45

Part 4 · Website — Public website

1	Get to know the home page	23
2	Request a service	24
3	Request a recurring contract	25
4	Explore job opportunities	26
5	Send your details for a position	27

Part 5 · Accounting Administration — Desktop app

1	Get to know the app and the payroll	29
2	Check the weighing chart	30
3	Review the accounting summary	31
4	Register customers	32
5	Create contracts	33
6	Set prices per ton	34
7	Register external services	35
8	Manage trips and trucks	36
9	Register extra trips	37
10	Handle website requests	38
11	Review the change audit	39

Frequently asked questions

	Troubleshooting common problems	46

PART 1

Driver

Mobile app

Check your trips, clock in and record the information and evidence of each route.

In this part you will learn to:

1. Sign in to the app
2. Get to know your home screen
3. Clock in for your shift
4. Check your trip calendar
5. Record additional information
6. Record evidence

DRIVER

Task 1

Sign in to the app

The mobile app is the SACOR employee portal. Your administrator gives you a personal access code to sign in.

1. Type the code your administrator gave you in the **Access code** field *(Código de acceso)*.
2. Tap **Ingresar** (Sign in).

Tip
Don't have a code? Ask your administrator for one, as the screen indicates.

For all three roles
The technician and the technical administrator sign in on this same screen. After signing in, each role sees its own functions.

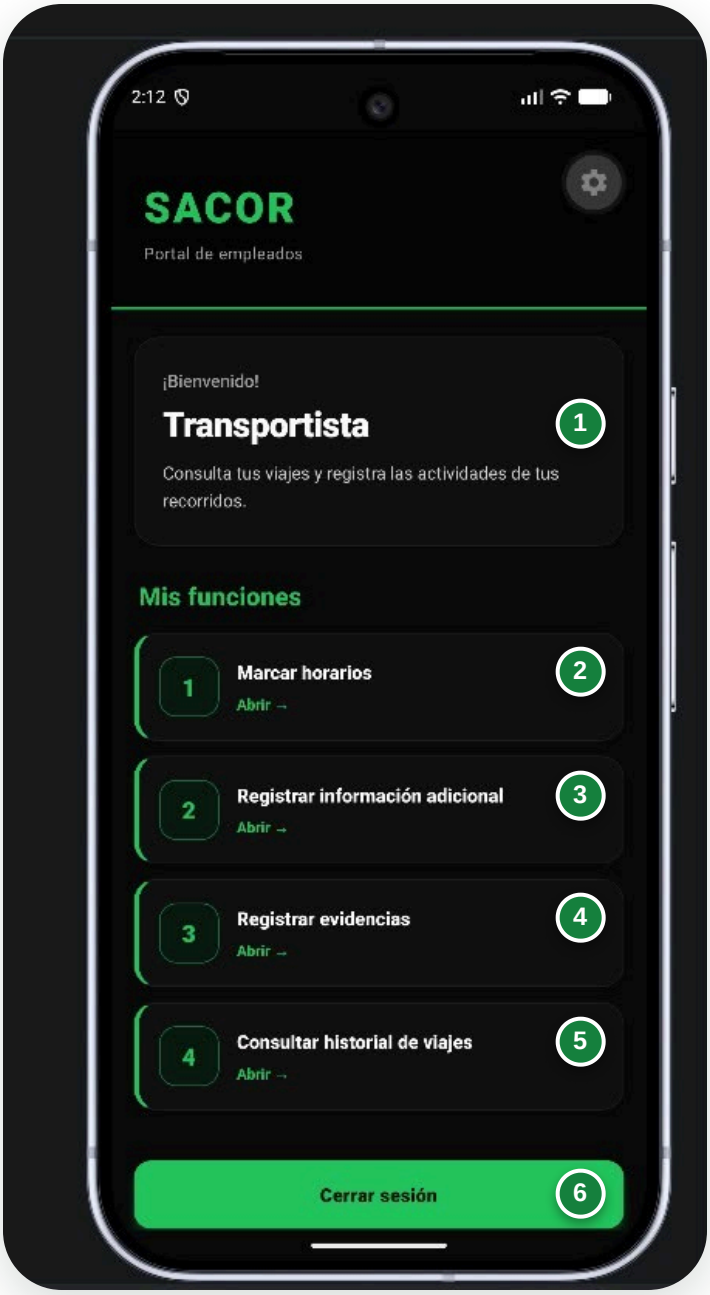

Caution!
Access is for authorized staff only. Do not share your code with anyone.

DRIVER

Task 2

Get to know your home screen

After signing in, you will see a greeting with your role and the list of your functions.

1. The **welcome card** confirms your role: you check your trips and record the activities of your routes.
2. **Clock in and out** *(Marcar horarios)*.
3. **Record additional information** *(Registrar información adicional)*: kilometers, fuel and expenses.
4. **Record evidence** of your trips *(Registrar evidencias)*.
5. **Check trip history** *(Consultar historial de viajes)*.
6. When you finish, tap **Cerrar sesión** (Sign out).

> **Tip**
> Tap **Abrir** (Open) on any function to enter it. Use **Volver** (Back), at the top left, to return to this screen.

DRIVER

Task 3

Clock in for your shift

The «Mis horarios» (My schedule) screen keeps a record of when you start and end each workday.

1. **My workday** *(Mi jornada)* shows the status of your day. «Sin jornada abierta» means you have not clocked in yet.
2. Tap **Marcar entrada** (Clock in) when you start your workday.
3. **Schedule history** *(Historial de horarios)* lists your previous records.
4. Tap **Actualizar horarios** (Refresh schedule) to reload the list.

> **Tip**
> If you just clocked in and don't see the record in the history, tap «Actualizar horarios».

DRIVER

Task 4

Check your trip calendar

The calendar shows, day by day, the trips your administrator assigned to you.

1. Change the month with the arrows. Below the month, you can see how many trips you have that month.
2. Days with a **green dot** have trips. Tap a day to see its trips.
3. The **trip details** appear below: place, customer, service and truck.
4. You also see the assigned **crew** (technicians and drivers) and whether the trip already has evidence.

> **Note**
> Extra trips created by the technical administrator also appear on this calendar.

DRIVER

Task 5

Record additional information

Here you record the operating data of your services: distance, fuel and expenses.

1. **Select the service** *(Selecciona un servicio)*. If you have no assigned services, the app tells you.
2. Enter the **kilometers traveled** *(Kilómetros recorridos)*.
3. Enter the **fuel used**, in liters *(Combustible utilizado)*.
4. Enter the **expense**, in dollars *(Gasto realizado)*.
5. Tap **Guardar información** (Save information).
6. Check your data under **Recorded information** *(Información registrada)*.

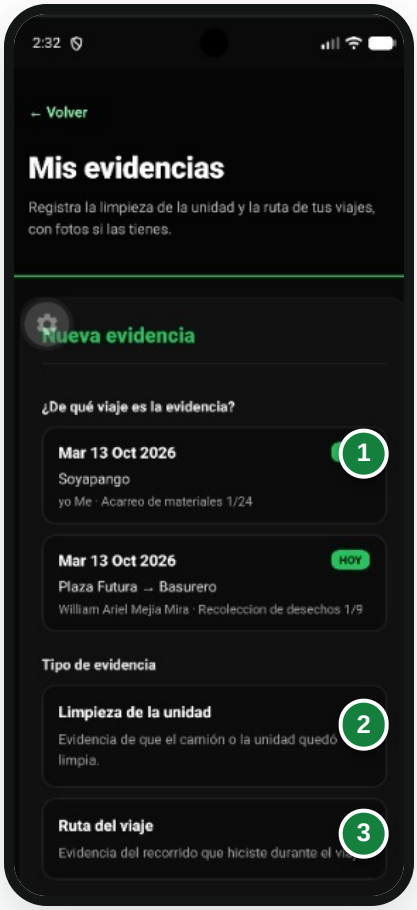

> **Tip**
> You can leave fields that don't apply blank: they are saved as zero.

DRIVER

Task 6

Record evidence

Record the cleaning of the unit and the route of your trips, with photos if you have them.

Choose trip and type

Description and photos

1. Choose **the trip** the evidence belongs to. Today's trips are labeled **HOY** (Today).
2. **Unit cleaning** *(Limpieza de la unidad)*: evidence that the truck or unit was left clean.
3. **Trip route** *(Ruta del viaje)*: evidence of the route you followed during the trip.
4. Describe what happened during the service (up to 500 characters).
5. Add up to 3 photos with **Tomar foto** (Take photo) or **Elegir de galería** (Choose from gallery). Photos are optional.
6. Tap **Guardar evidencia** (Save evidence).

> **Tip**
> If you have no photos at that moment, you can save the evidence with only the description.

PART 2

Technician

Mobile app

Record the collection work of each trip: tons per material, expenses and notes.

In this part you will learn to:

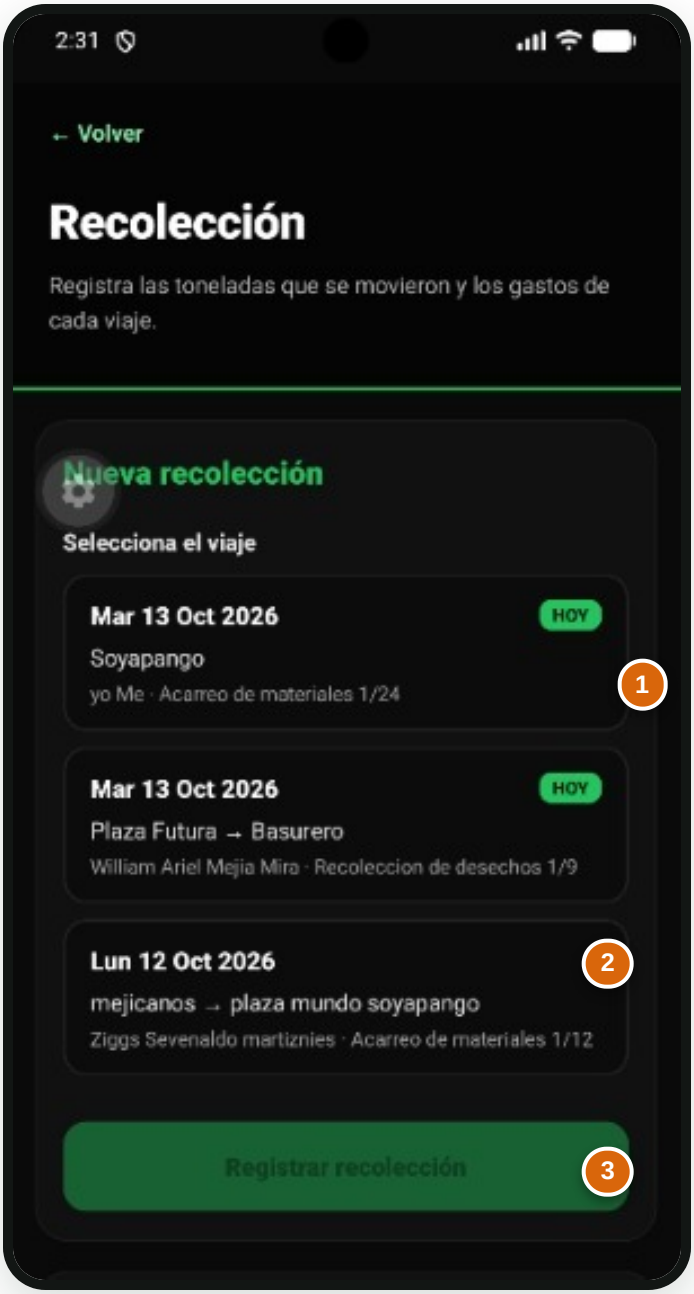

1. Record a collection
2. Review the history by trip

Task 1

Record a collection

In «Recolección» (Collection) you record the tons that were moved and the expenses of each trip.

1. Under **New collection** *(Nueva recolección)*, select the trip. Today's trips are labeled **HOY** (Today).
2. Each trip shows the date, place, customer and service, so you can choose the right one.
3. Enter the tons and expenses of the trip and tap **Registrar recolección** (Record collection).

Before you start
To sign in to the app, use your access code, just like in **Part 1 · Task 1** (p. 5).

Tip
Make sure you have selected a trip before tapping «Registrar recolección».

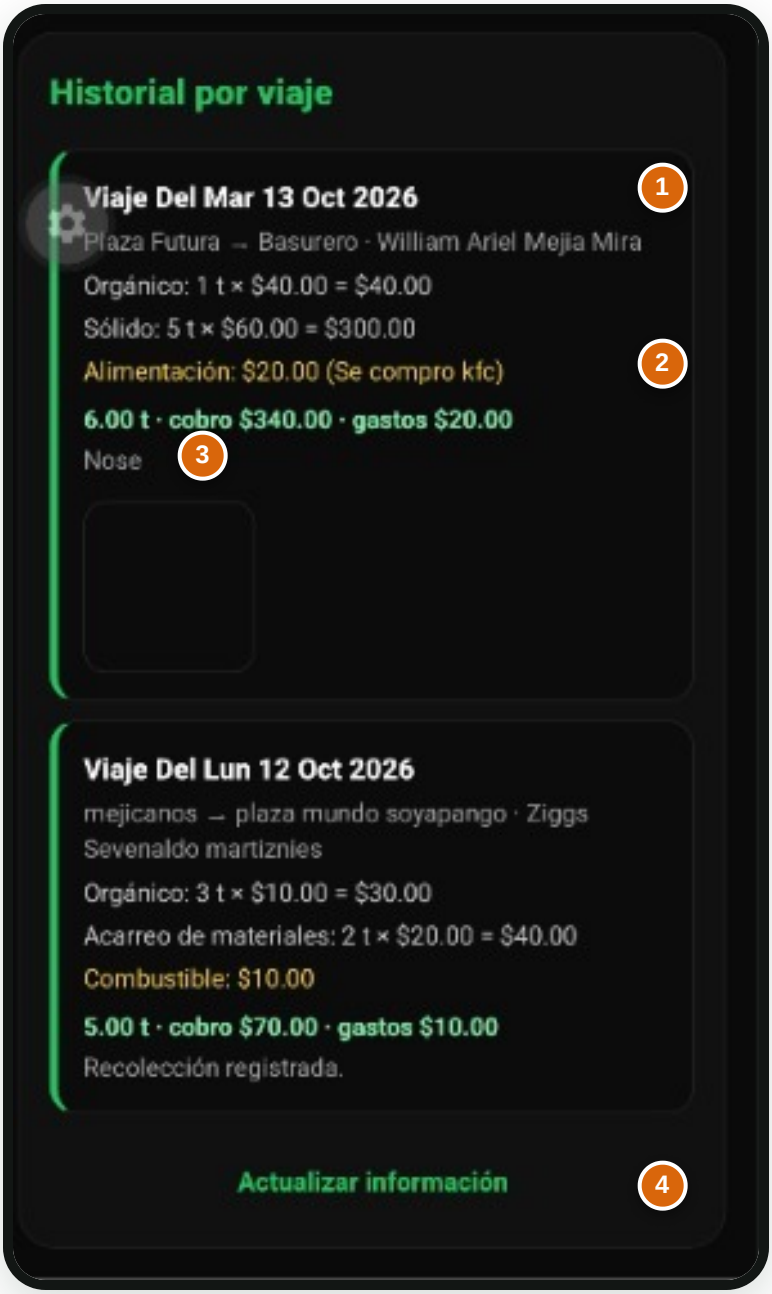

Where is it shown?
The expenses you record on the mobile app appear in the desktop app, under «Salidas y camiones» (Trips and trucks).

TECHNICIAN

Task 2

Review the history by trip

Below the form is the history with everything you recorded on each trip.

1. Each card corresponds to a **trip**: date, route and customer.
2. You will see the **tons per material** with their price, the **expenses** (in orange) and the summary: tons, amount charged and expenses.
3. The **notes** you wrote appear below.
4. Tap **Actualizar información** (Refresh information) to reload the history.

> **How is it calculated?**
> Each material is multiplied by its price per ton. For example: Orgánico (organic) 1 t × $40.00 = $40.00.

TECHNICIAN

PART 3

Technical Administrator

Mobile app

Organize contracts and trips, assign staff and trucks, and register employees and external services.

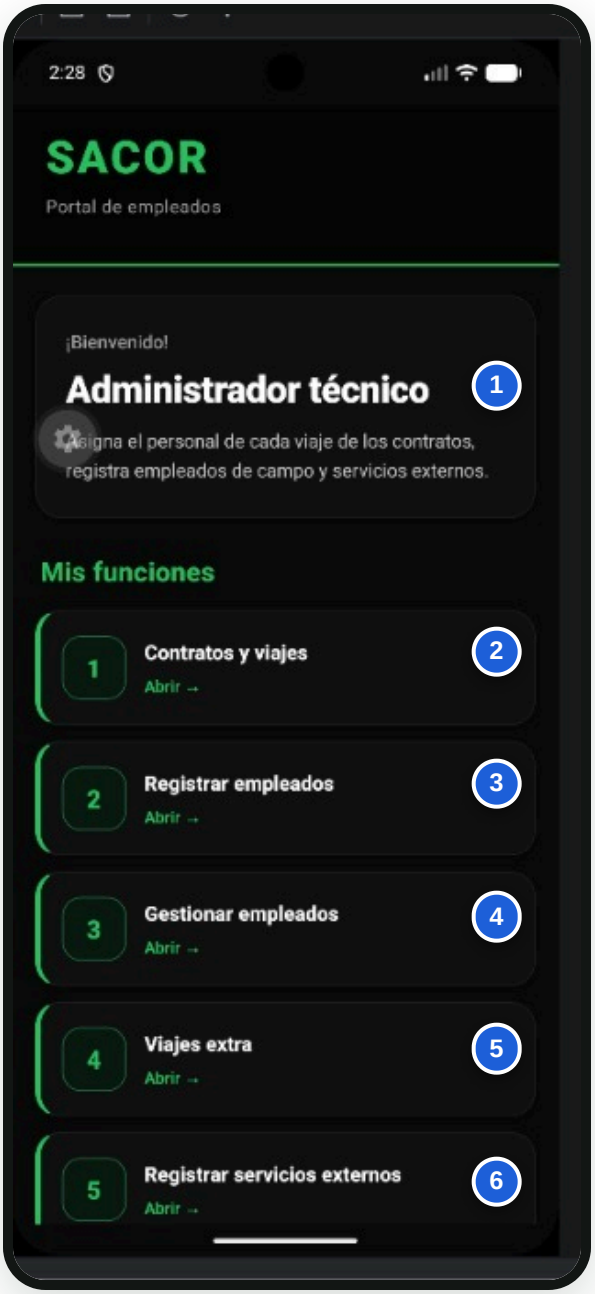

In this part you will learn to:

1. Get to know the main panel
2. Review contracts and trips
3. Assign staff and truck
4. Create an extra trip
5. Register an employee
6. Manage employees
7. Register external services

Task 1

Get to know the main panel

From here you organize the field work: contracts, trips, employees and external services.

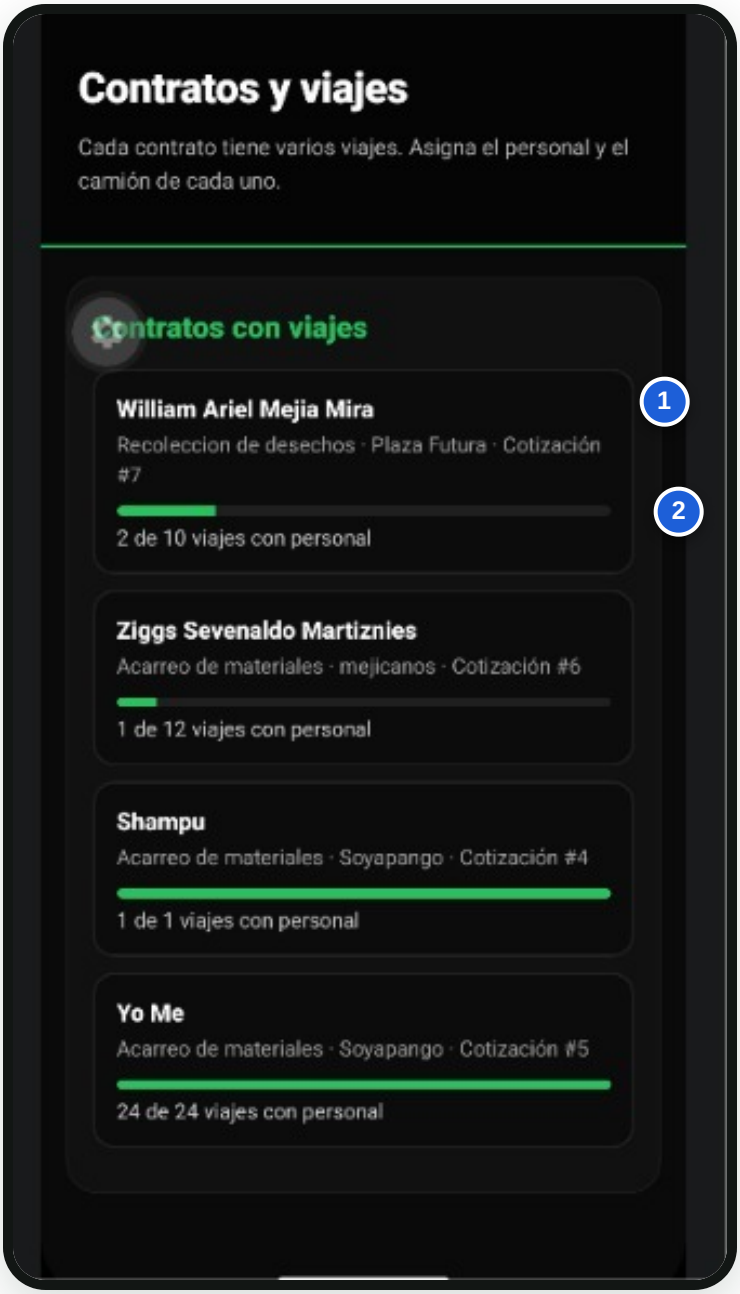

1. The **welcome card** confirms the **Technical Administrator** role.
2. **Contracts and trips** *(Contratos y viajes)*: assign the staff and truck for each trip.
3. **Register** field **employees** *(Registrar empleados)*.
4. **Manage employees** *(Gestionar empleados)*: view the staff and change their status.
5. **Extra trips** *(Viajes extra)*: create unplanned trips for a contract.
6. **Register external services** *(Registrar servicios externos)*.

Before you start
To sign in, use your account's access code, as in **Part 1 · Task 1** (p. 5).

Task 2

Review contracts and trips

Each contract has several trips. This list shows which ones already have staff assigned.

1. Each card is a **contract**: customer, service, place and quote number. Tap it to see its trips.
2. The **progress bar** shows how many trips already have staff; for example, «2 de 10 viajes con personal» (2 of 10 trips with staff).

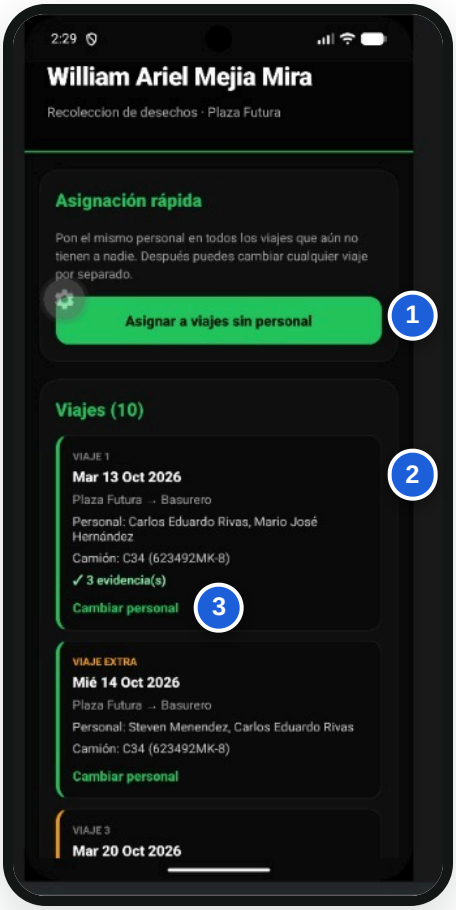

> **Tip**
> A full bar means that all the trips of that contract already have staff.

TECH. ADMIN

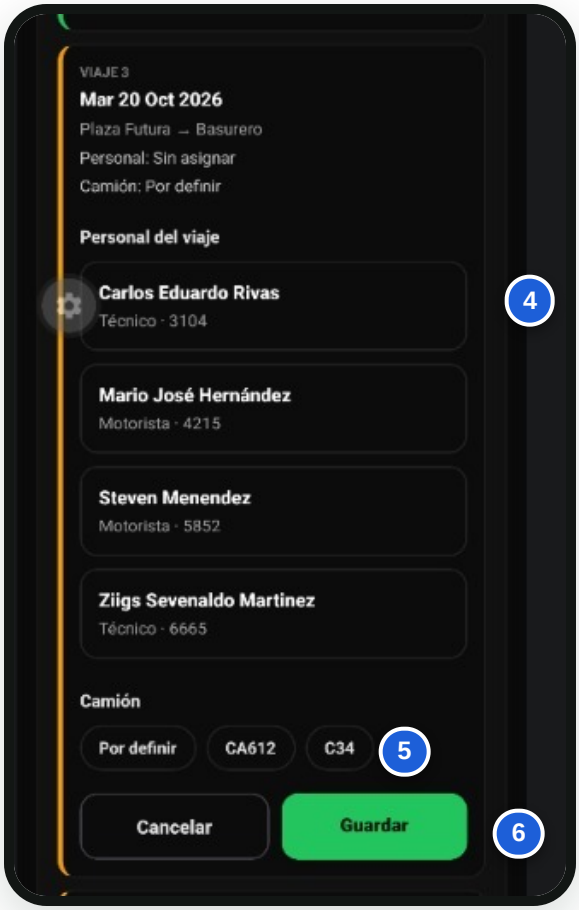

Task 3

Assign staff and truck

Inside a contract, you can assign all trips at once or change them one by one.

Contract trips

Staff and truck

1. **Asignar a viajes sin personal** (Assign to trips without staff) assigns the same staff to every trip that has no one yet.
2. Under **Trips** *(Viajes)*, each card shows the date, route, staff, truck and evidence.
3. Tap **Cambiar personal** (Change staff) to edit a trip.
4. Select the **trip staff** *(Personal del viaje)*: technicians and drivers.
5. Choose the **truck** or leave «Por definir» (To be defined).
6. Tap **Guardar** (Save).

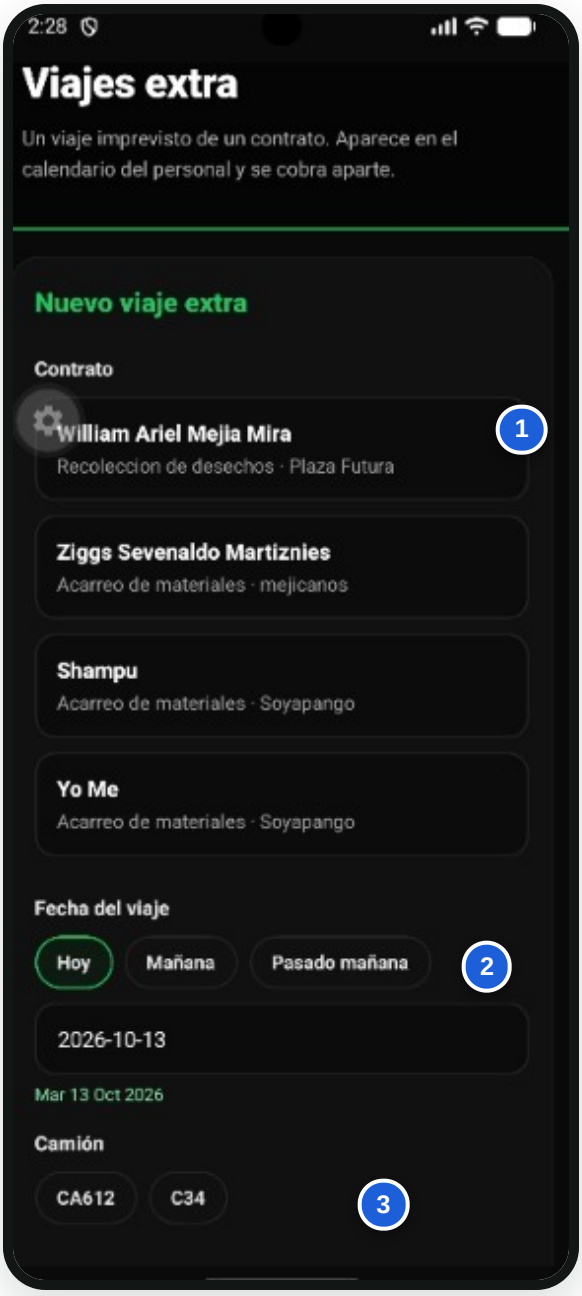

Tip
After the quick assignment, you can still change any trip separately.

TECH. ADMIN

Task 4

Create an extra trip

An extra trip is an unplanned trip for a contract. It appears on the staff calendar and is billed separately.

1. Under **New extra trip** *(Nuevo viaje extra)*, choose the **contract**.
2. Choose the **trip date**: **Hoy** (Today), **Mañana** (Tomorrow), **Pasado mañana** (Day after tomorrow) or type it.
3. Choose the **truck** and complete the record.

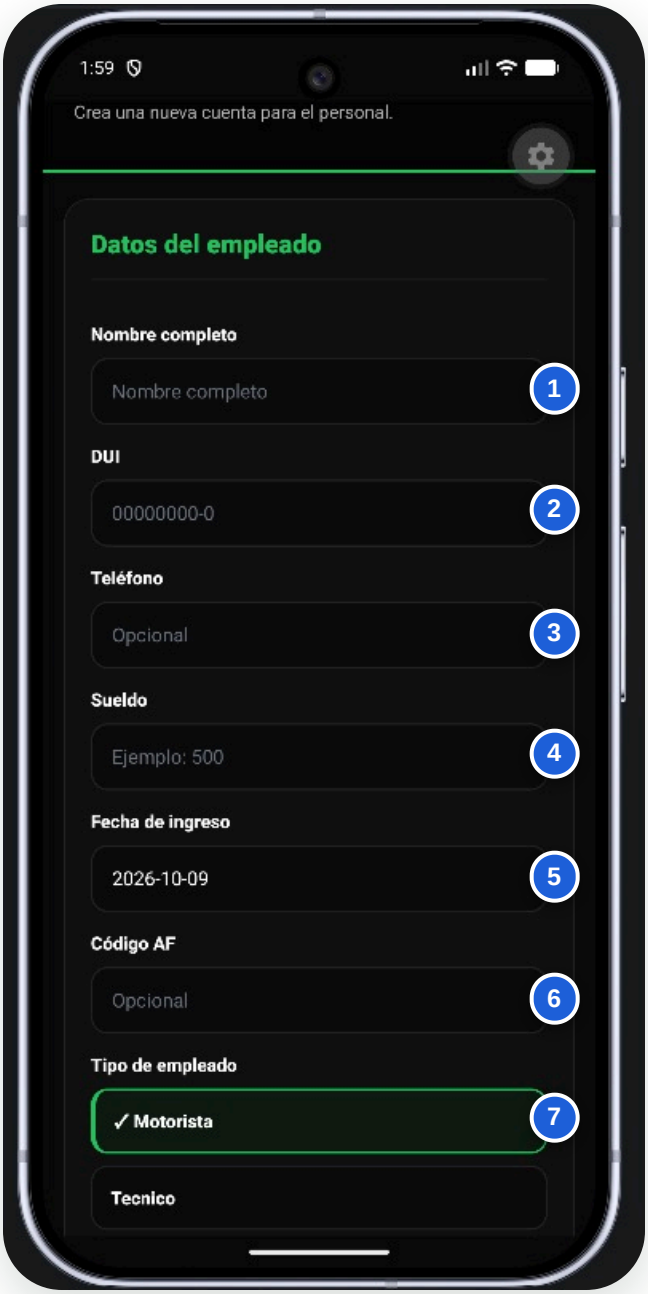

> **Note**
> The assigned staff will see the extra trip on their trip calendar (Part 1 · Task 4, p. 8).

TECH. ADMIN

Task 5

Register an employee

Create the account for new field staff with their identification and work details.

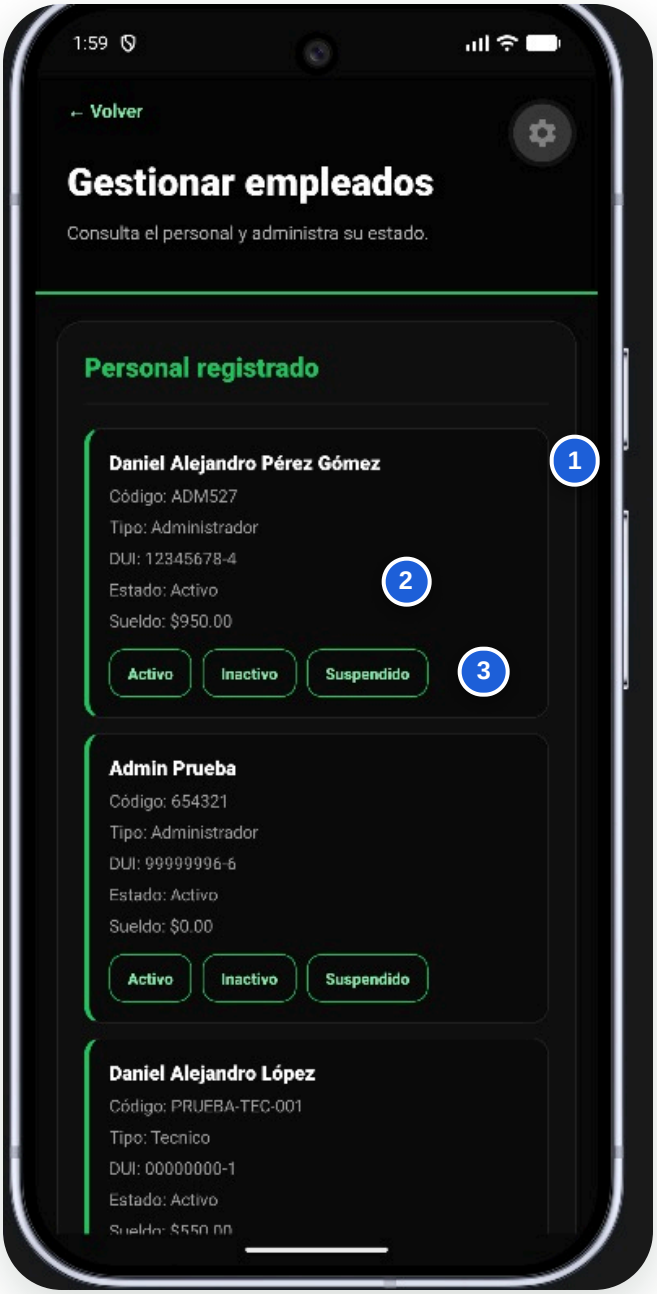

1. Enter the **full name** *(Nombre completo)*.
2. Enter the **DUI** (national ID) in the format 00000000-0.
3. Enter the **phone number** *(Teléfono)* (optional).
4. Enter the **salary** *(Sueldo)*.
5. Check the **start date** *(Fecha de ingreso)*.
6. Enter the **AF code** *(Código AF)* (optional).
7. Choose the **employee type**: **Motorista** (Driver) or **Tecnico** (Technician).

> **Tip**
> You can leave the fields marked «Opcional» (Optional) empty.

Task 6

Manage employees

View the registered staff and manage their status.

1. Each card shows **name, code, type, DUI, status and salary**.
2. The current **status** appears on the card.
3. Change the status with **Activo** (Active), **Inactivo** (Inactive) or **Suspendido** (Suspended).

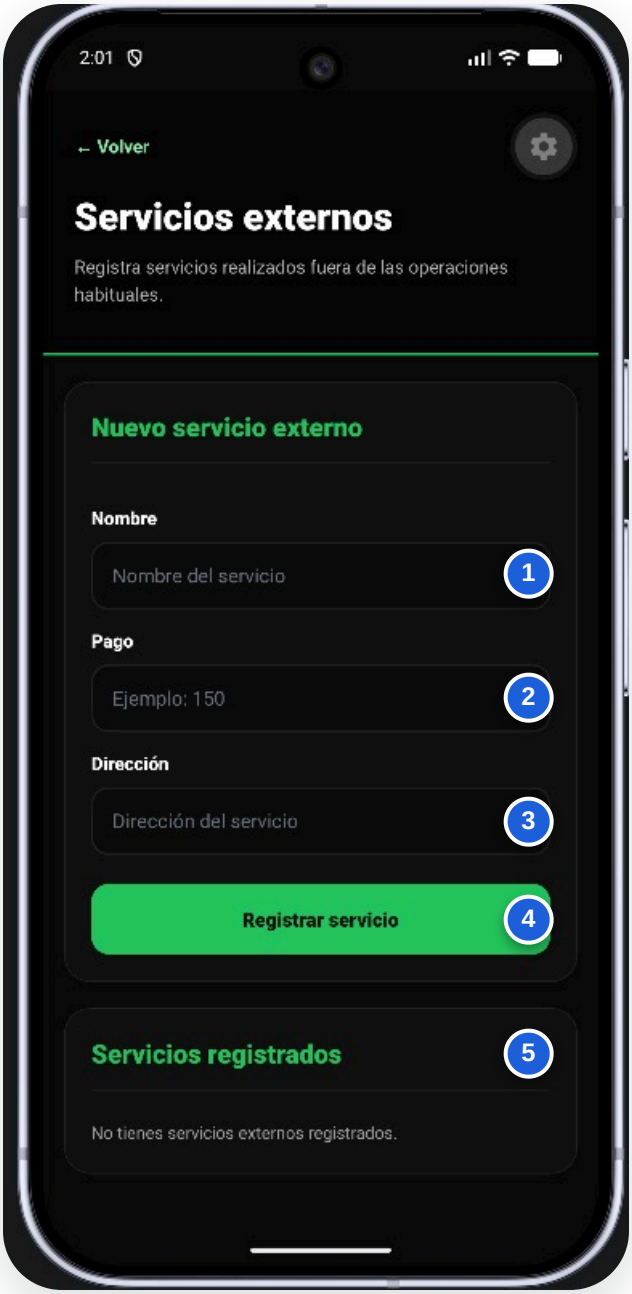

> **Caution!**
> Make sure it is the right person before changing their status.

TECH. ADMIN

Task 7

Register external services

Record services performed outside regular operations.

1. Enter the service **name** *(Nombre)*.
2. Enter the **payment** *(Pago)*; for example, 150.
3. Enter the service **address** *(Dirección)*.
4. Tap **Registrar servicio** (Register service).
5. Check the list of **Registered services** *(Servicios registrados)*.

TECH. ADMIN

PART 4

Website

Public website

Learn about SACOR, request a quote and apply to work at the company.

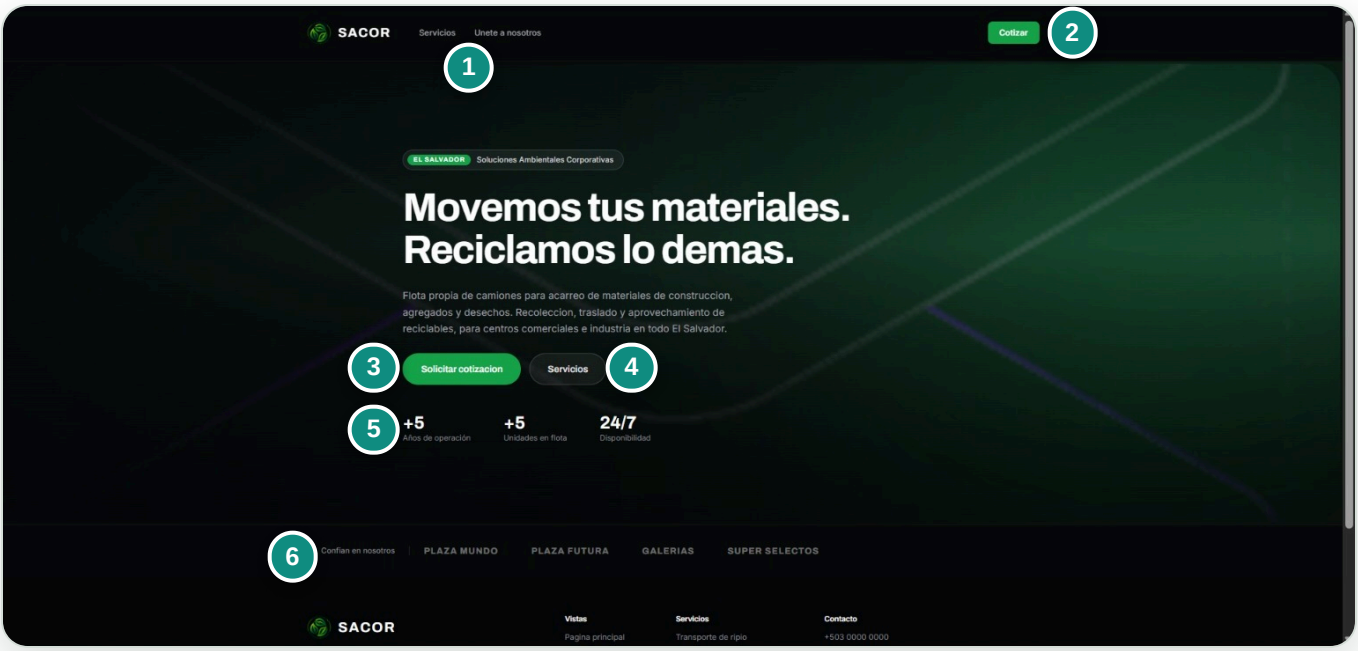

In this part you will learn to:

1. Get to know the home page
2. Request a service
3. Request a recurring contract
4. Explore job opportunities
5. Send your details for a position

Task 1

Get to know the home page

The home page introduces SACOR and leads to its services, the quote form and the jobs section.

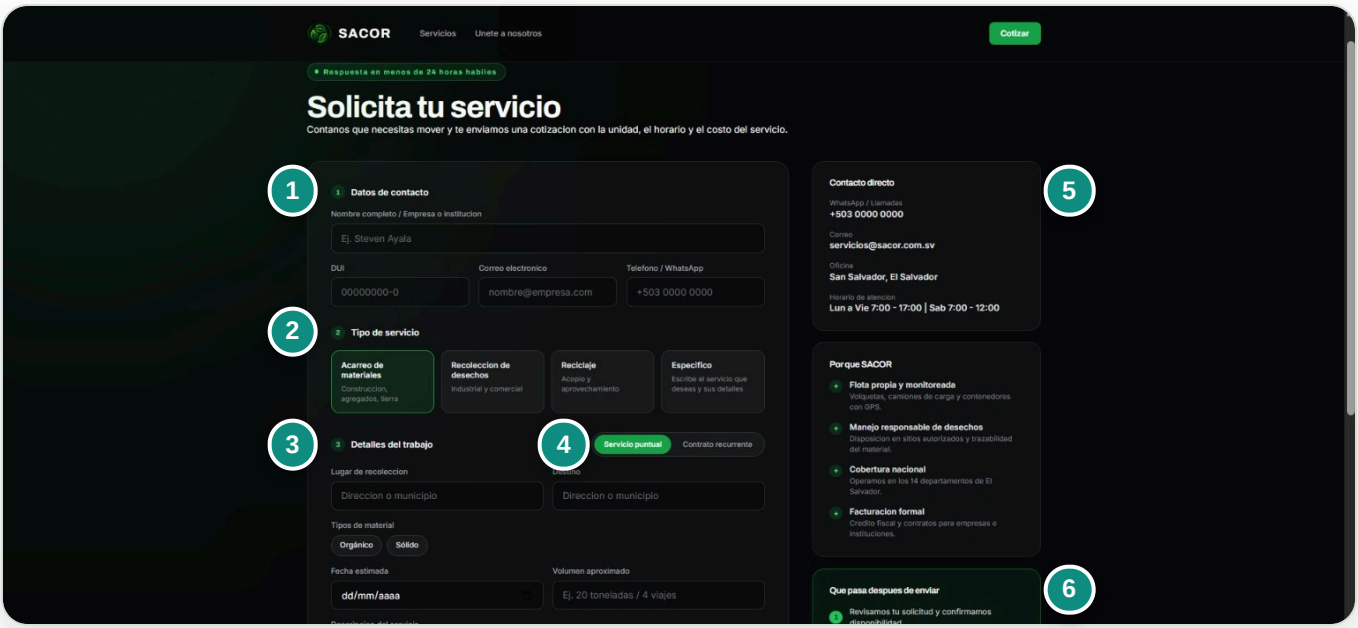

1. Menu: **Servicios** (Services) and **Unete a nosotros** (Join us).
2. **Cotizar** (Get a quote) is always visible at the top right.
3. **Solicitar cotizacion** (Request a quote) opens the service form.
4. **Servicios** (Services) shows what SACOR offers.
5. Company figures: years in operation, units in the fleet and 24/7 availability.
6. Companies that trust SACOR.

Task 2

Request a service

Tell SACOR what you need to move and they will send you a quote with the unit, schedule and cost of the service.

1. **Contact details** *(Datos de contacto)*: name or company, DUI, email and phone or WhatsApp.
2. **Service type** *(Tipo de servicio)*: material hauling, waste collection, recycling or a specific service.
3. **Job details** *(Detalles del trabajo)*: pickup location, destination, material types, estimated date and volume.
4. Choose **Servicio puntual** (One-time service) or **Contrato recurrente** (Recurring contract).
5. **Direct contact** *(Contacto directo)*: WhatsApp, email, office and business hours.
6. **What happens after you submit** *(Qué pasa después de enviar)*: the steps SACOR follows with your request.

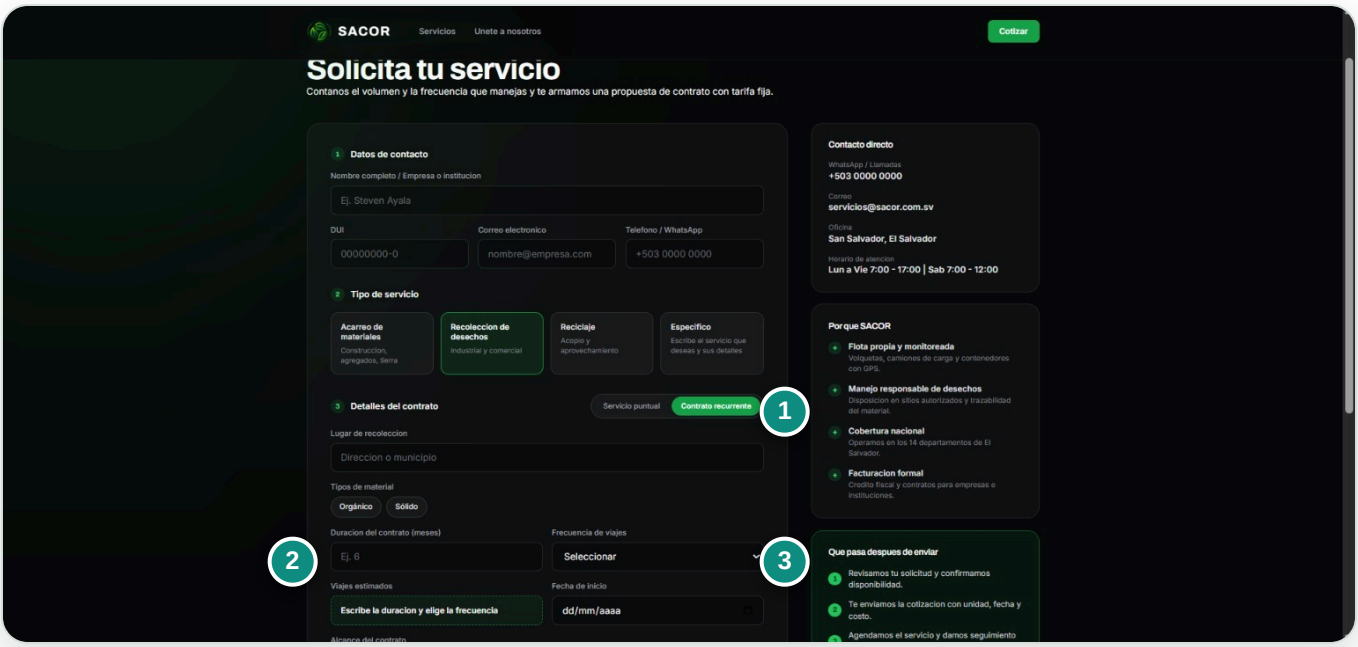

> **Tip**
> The page states that SACOR replies in less than 24 business hours.

WEBSITE

Task 3

Request a recurring contract

If you need the service regularly, enter the volume and frequency and SACOR will prepare a contract proposal with a fixed rate.

1. Under **Contract details** *(Detalles del contrato)*, choose **Contrato recurrente** (Recurring contract).
2. Enter the **contract length** in months *(Duración del contrato)*.
3. Choose the **trip frequency** *(Frecuencia de viajes)*. With the length and frequency, the form shows the **estimated trips**.

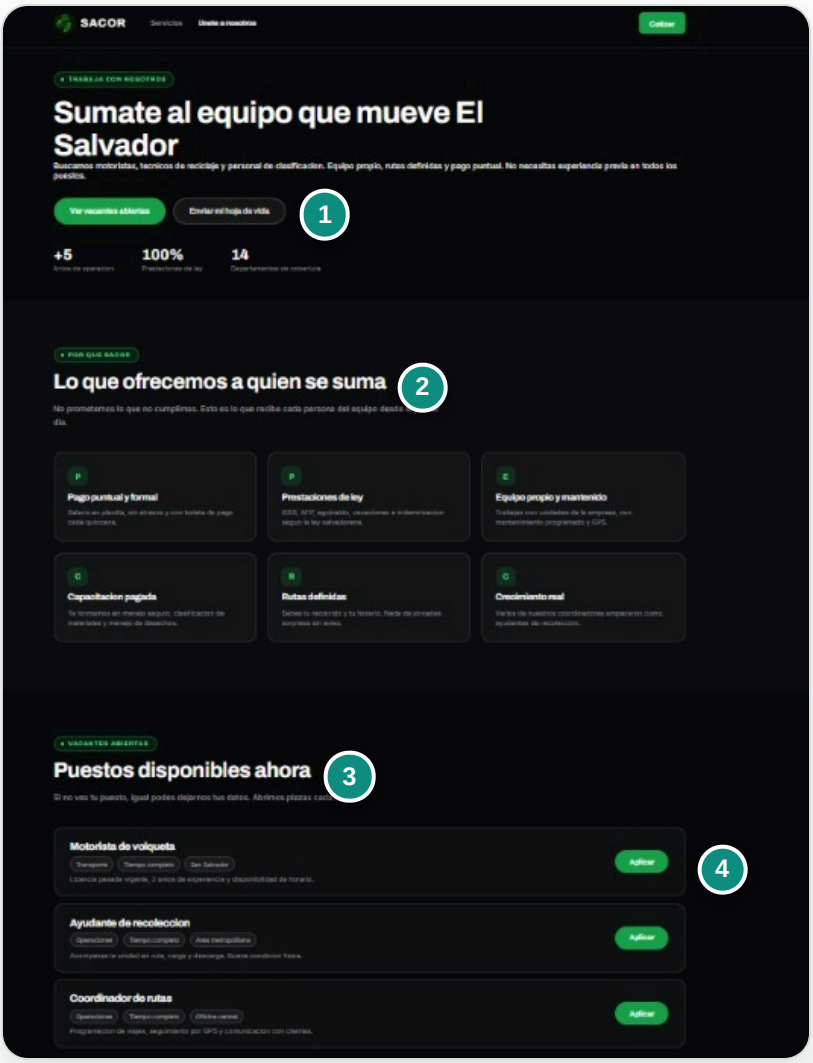

> **Note**
> The contact details and service type are filled in the same way as in the previous task.

WEBSITE

Task 4

Explore job opportunities

In «Unete a nosotros» (Join us), people interested in working at SACOR can see the available positions.

1. **Ver vacantes abiertas** (See open positions) or **Enviar mi hoja de vida** (Send my résumé).
2. **What we offer** *(Lo que ofrecemos)* to people who join the team.
3. **Positions available now** *(Puestos disponibles ahora)*, with their description.
4. Tap **Aplicar** (Apply) on the position you are interested in.

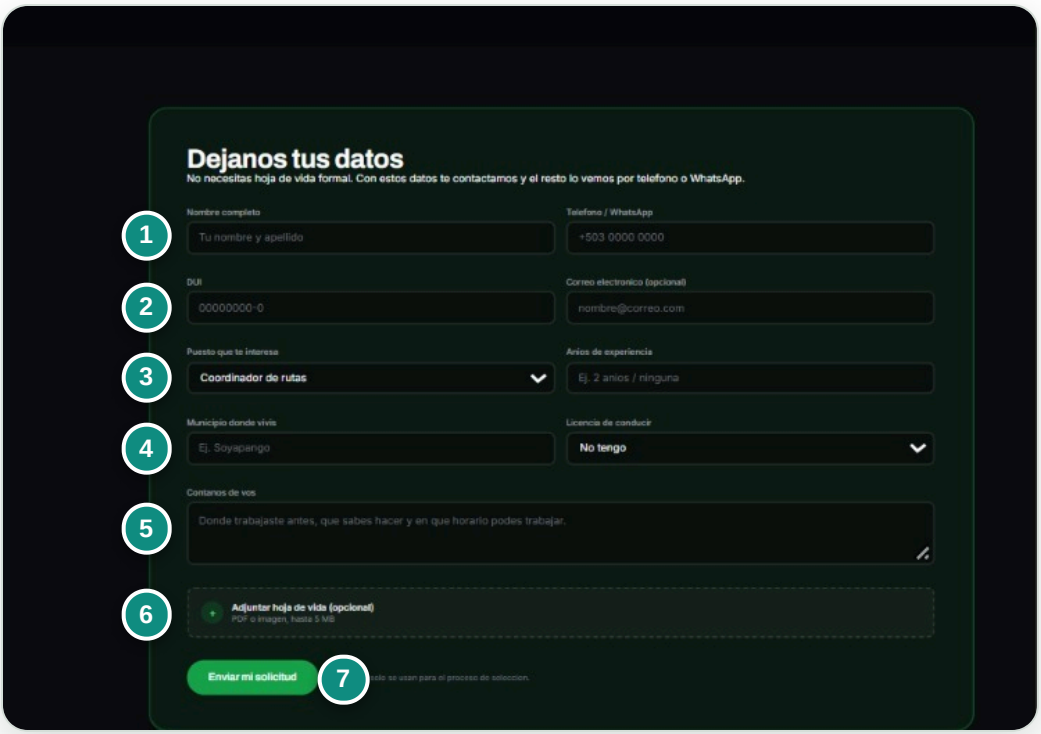

> **Tip**
> If you don't see your position, you can still leave your details: the page says new positions open every month.

WEBSITE

Task 5

Send your details for a position

You don't need a formal résumé: SACOR contacts you with these details, and the rest is handled by phone or WhatsApp.

1. **Full name** and **phone or WhatsApp**.
2. **DUI** and **email** (optional).
3. **Position you are interested in** and **years of experience**.
4. **Municipality where you live** and whether you have a **driver's license**.
5. **Tell us about yourself** *(Contanos de vos)*: where you have worked, what you can do and what hours you can work.
6. **Attach résumé** *(Adjuntar hoja de vida)* (optional): PDF or image, up to 5 MB.
7. Tap **Enviar mi solicitud** (Send my application).

Privacy
According to the form, your details are only used for the hiring process.

PART 5

Accounting Administration

Desktop app

Manage employees, weighing records, accounting, customers, contracts, trips, extra trips and web requests.

In this part you will learn to:

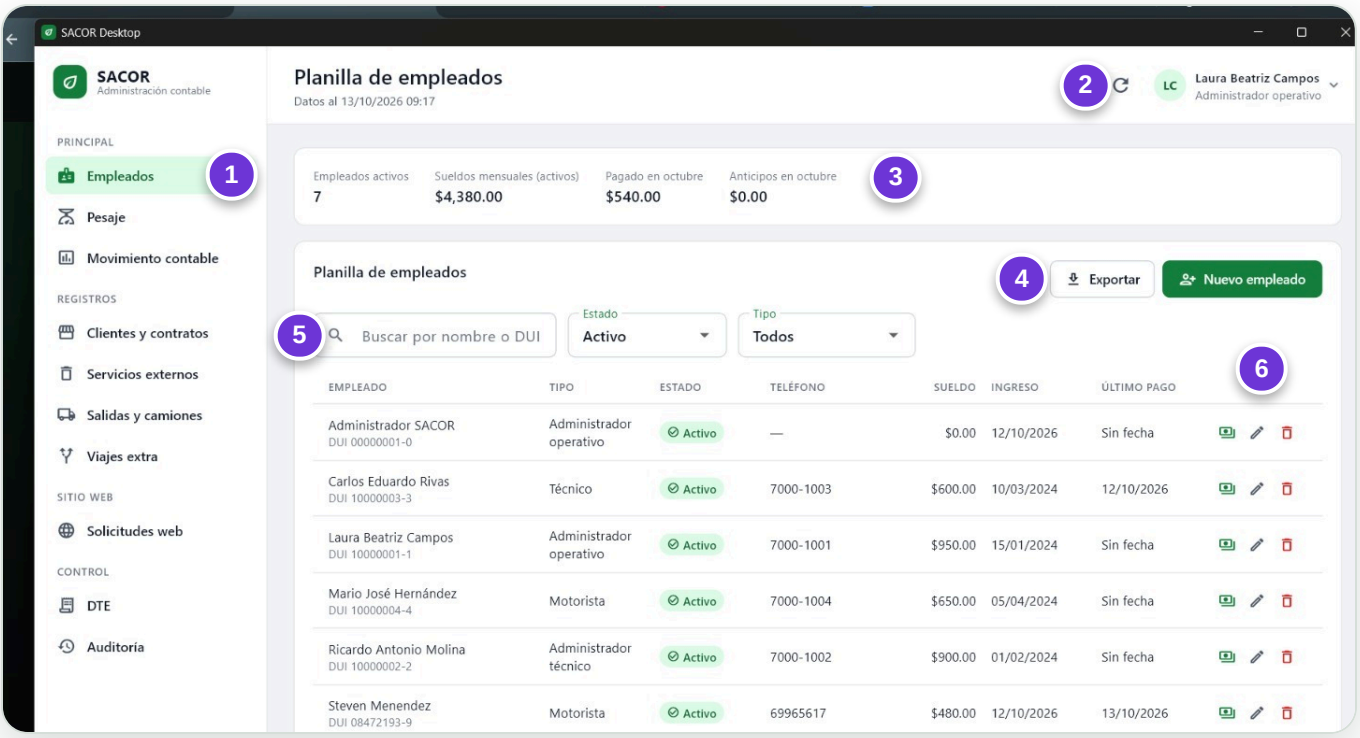

1. Get to know the app and the payroll
2. Check the weighing chart
3. Review the accounting summary
4. Register customers
5. Create contracts
6. Set prices per ton
7. Register external services
8. Manage trips and trucks
9. Register extra trips
10. Handle website requests
11. Review the change audit

Task 1

Get to know the app and the payroll

SACOR Desktop is the accounting administration tool. It opens on «Empleados» (Employees), with the staff payroll.

1. **Side menu**: Principal (Main), Registros (Records), Sitio web (Website) and Control.
2. Signed-in user and button to **refresh** the data.
3. **Summary**: active employees, monthly salaries, paid this month and advances.
4. **Exportar** (Export) the payroll or create a **Nuevo empleado** (New employee).
5. Search by **name or DUI** and filter by status and type.
6. Row actions: **payment** (green icon), **edit** (pencil) and **delete** (trash can).

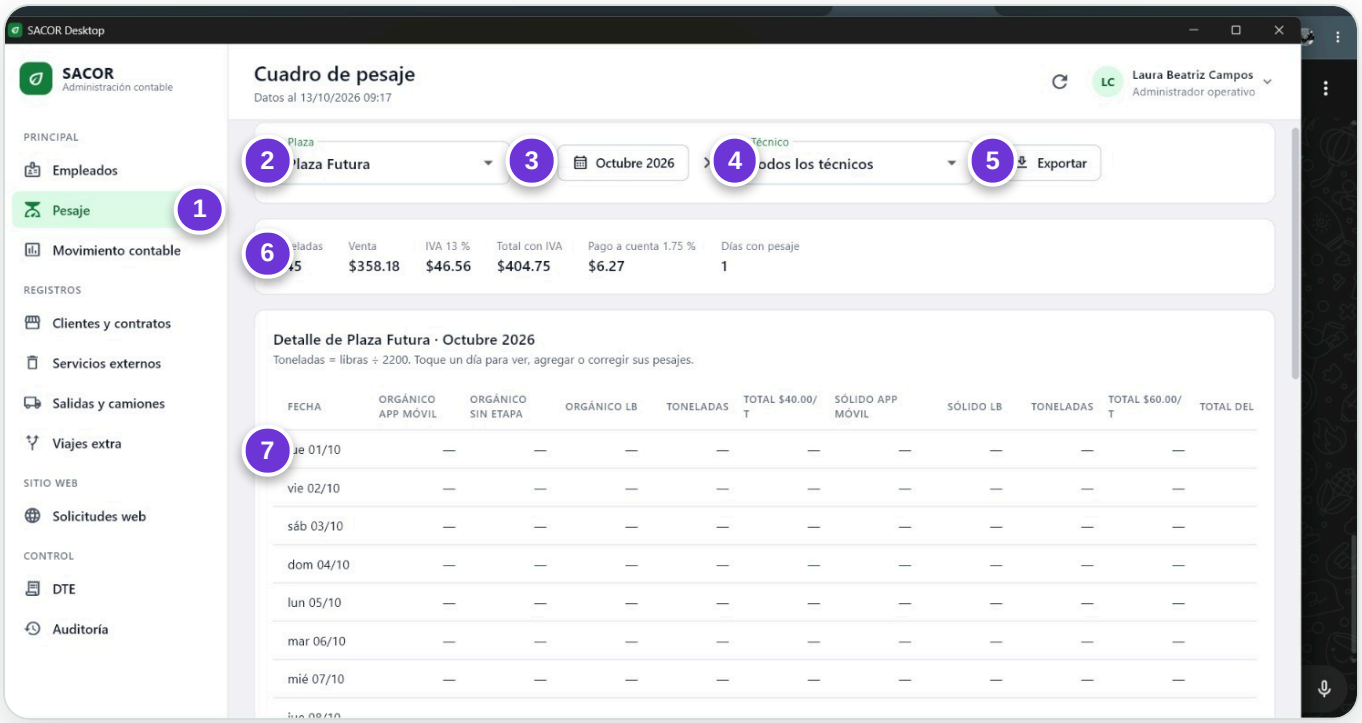

> **Note**
> The top of each screen shows the date and time of the data displayed («Datos al…», Data as of…).

DESKTOP

Task 2

Check the weighing chart

The weighing chart gathers the tons of each site per day and calculates the month's sales.

1. In the menu, click **Pesaje** (Weighing).
2. Choose the **site** *(Plaza)*.
3. Change the **month** with the arrows.
4. Filter by **technician** *(Técnico)*.
5. **Exportar** (Export) the chart.
6. **Summary**: tons, sales, 13% VAT, total with VAT, 1.75% advance tax payment and days with weighing.
7. **Daily detail** by material type. Click a day to view, add or correct its weighing records.

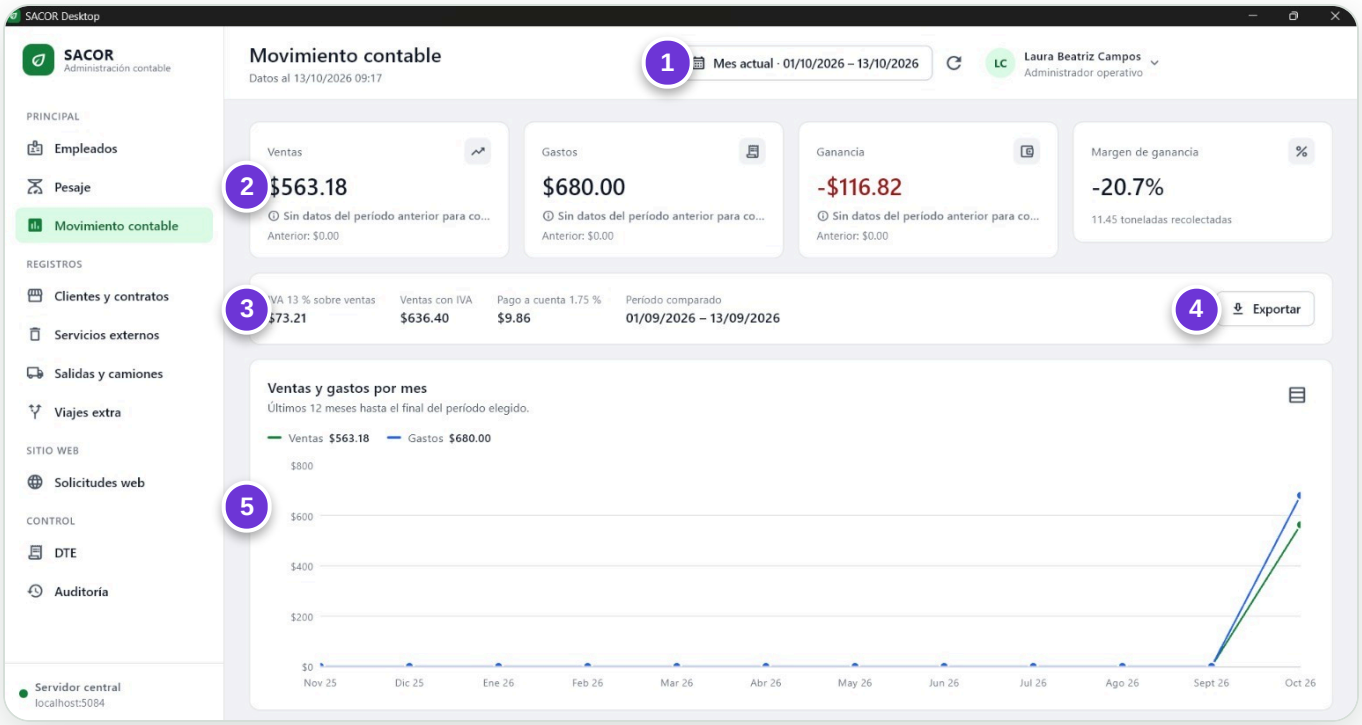

> **How is it calculated?**
> The screen states that tons are obtained by dividing pounds by 2200.

DESKTOP

Task 3

Review the accounting summary

«Movimiento contable» (Accounting summary) shows the sales, expenses and profit for the selected period.

1. Choose the **period**; by default it is the current month.
2. Cards for **sales, expenses, profit and margin**, compared with the previous period.
3. **Taxes**: 13% VAT on sales, sales with VAT and 1.75% advance tax payment.
4. **Exportar** (Export) the report.
5. Chart of **sales and expenses per month** for the last 12 months.

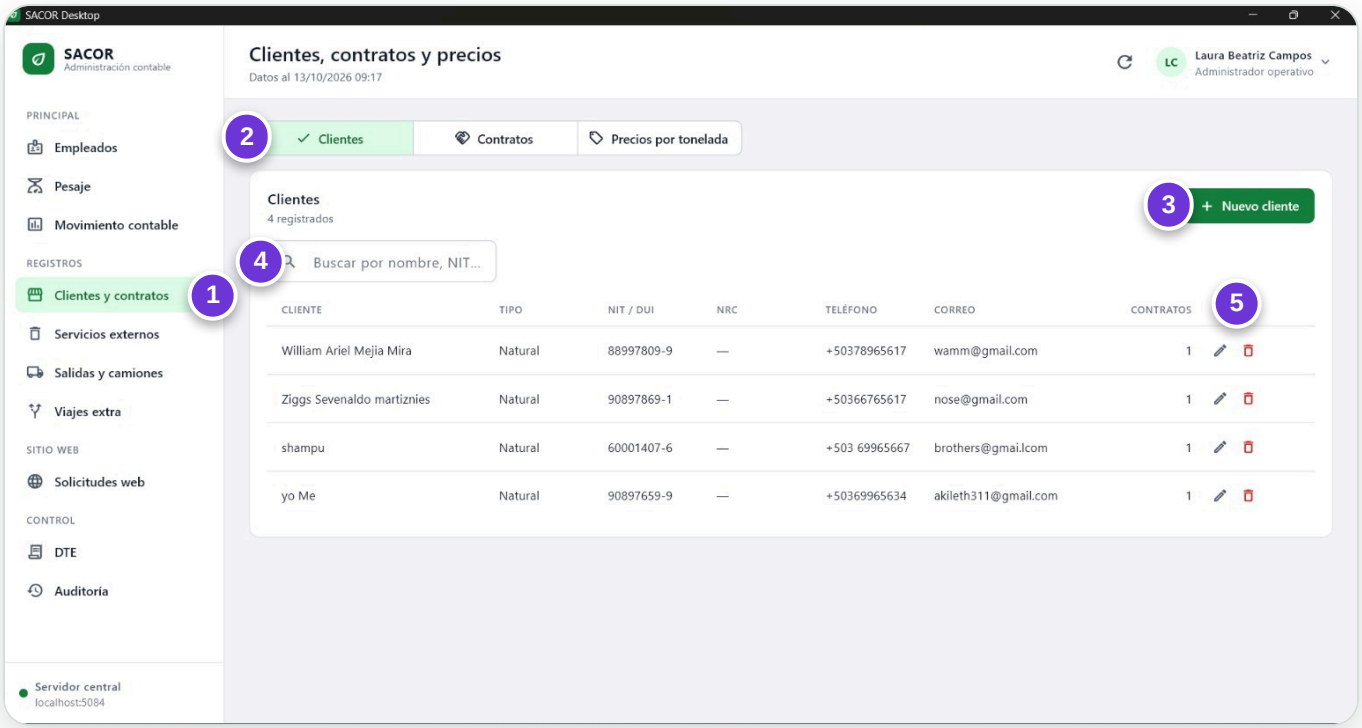

> **Attention**
> A profit shown in red means that expenses were higher than sales in that period.

DESKTOP

Task 4

Register customers

This section holds the customers, their contracts and the prices per ton.

1. In the menu, click **Clientes y contratos** (Customers and contracts).
2. Tabs: **Clientes** (Customers), **Contratos** (Contracts) and **Precios por tonelada** (Prices per ton).
3. Click **Nuevo cliente** (New customer).
4. Search by **name or NIT** (tax ID).
5. Edit or delete a customer with the icons on its row.

New customer

6. **Full name**, company or institution.
7. **DUI** and **email**.
8. **Phone or WhatsApp**.
9. Click **Guardar** (Save).

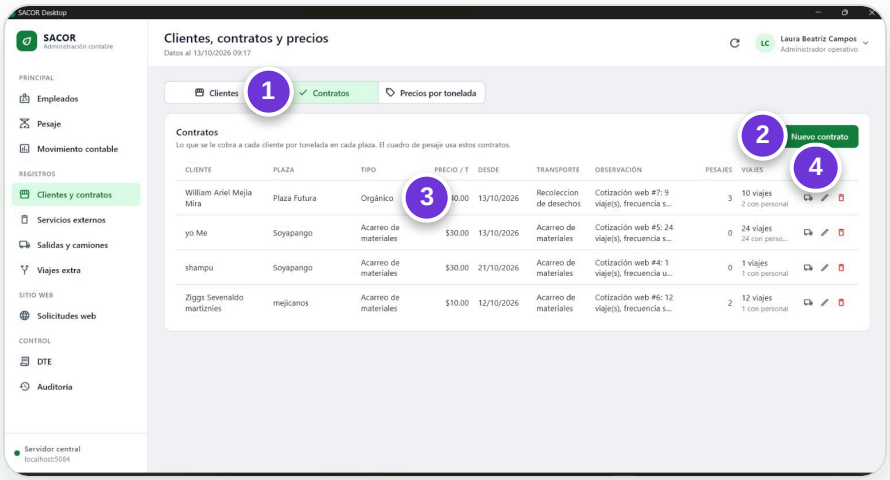

DESKTOP

Tip
These are the same contact details that the website asks for.

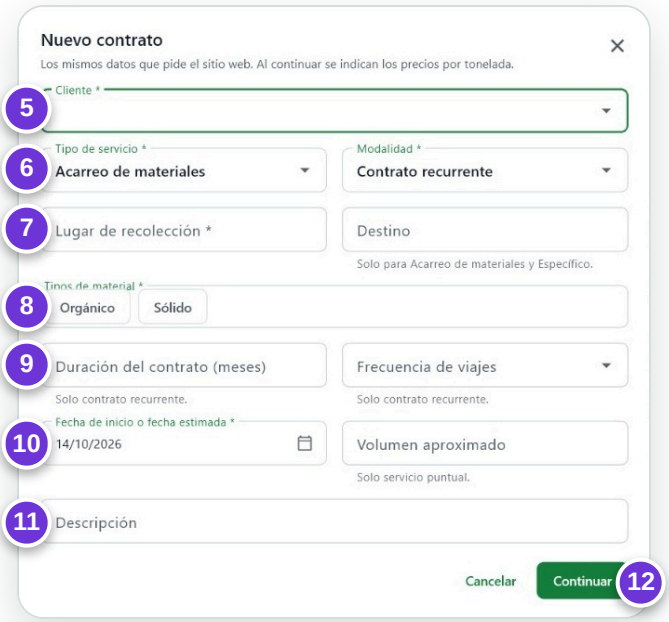

Task 5

Create contracts

A contract defines what each customer is charged per ton at each site. The weighing chart uses these contracts.

1. Open the **Contratos** (Contracts) tab.
2. Click **Nuevo contrato** (New contract).
3. Each row shows the customer, site, type, **price per ton**, date, transport, web quote, weighings and trips.
4. Use the row icons to work with the contract.

New contract

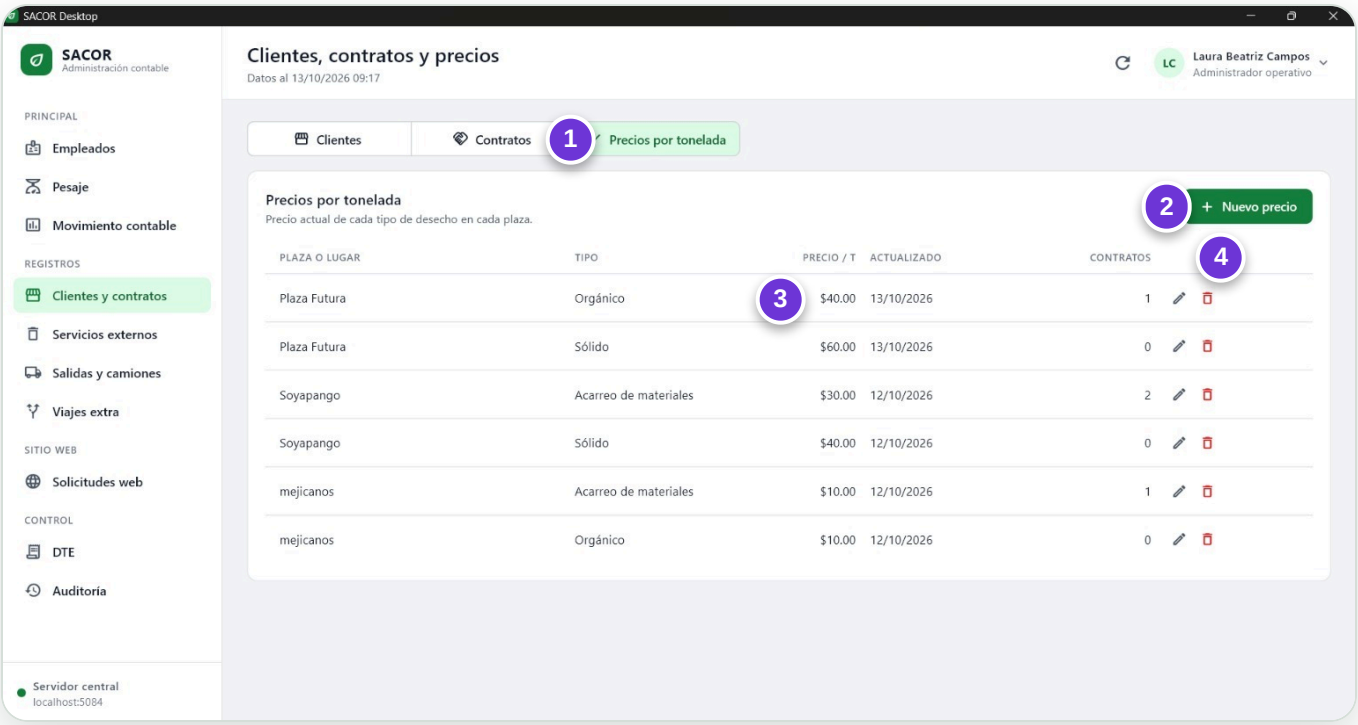

5. **Customer**.
6. **Service type** and **mode**.
7. **Pickup location** and **destination**.
8. **Material types**.
9. **Length** and **frequency** (recurring contract).
10. **Start date** and **volume** (one-time service).
11. **Description**.
12. **Continuar** (Continue): the prices per ton are entered next.

DESKTOP

Task 6

Set prices per ton

Here you find the current price of each waste type at each site.

1. Open the **Precios por tonelada** (Prices per ton) tab.
2. Click **Nuevo precio** (New price).
3. Check the **price per ton** and the date it was updated.
4. The **Contracts** column shows how many contracts use that price. Edit or delete with the icons.

New price

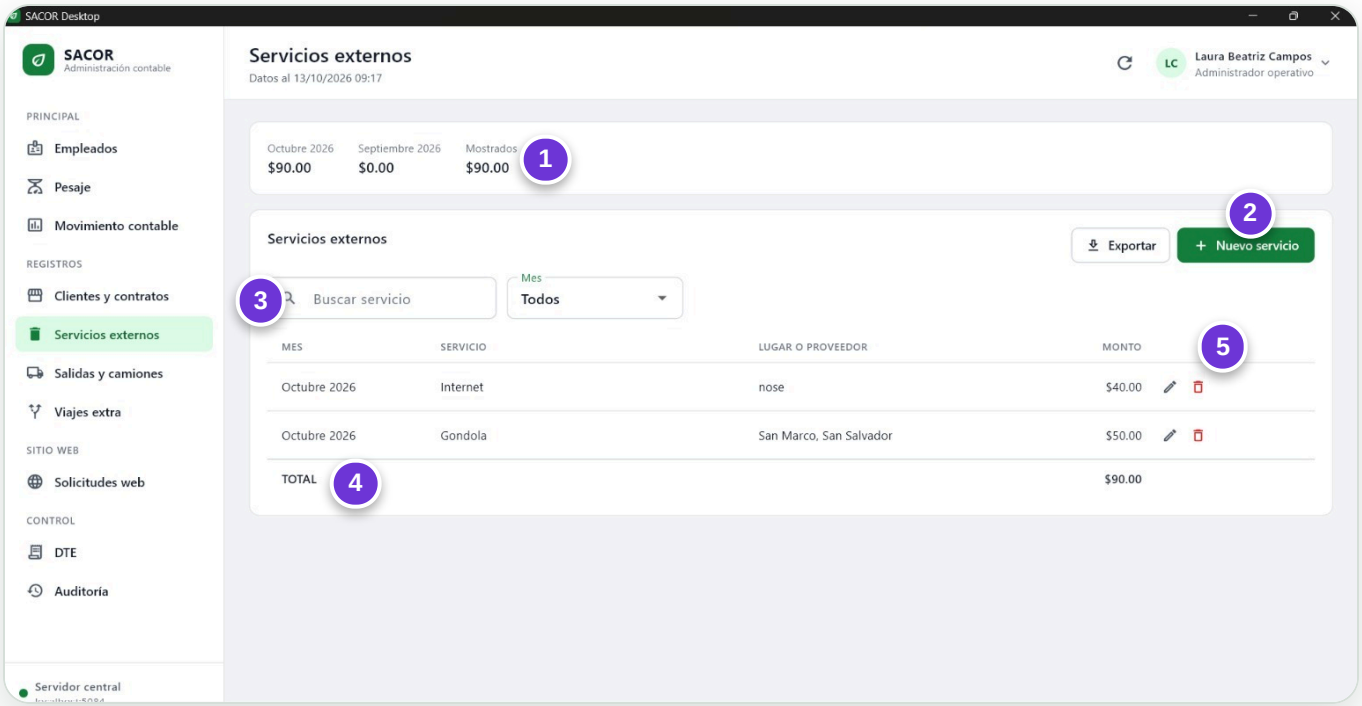

5. Choose the **waste type** *(Tipo de desecho)*.
6. Choose the **site or place** *(Plaza o lugar)*.
7. The sites appear in a list.
8. Enter the **price per ton** and click **Guardar** (Save).

DESKTOP

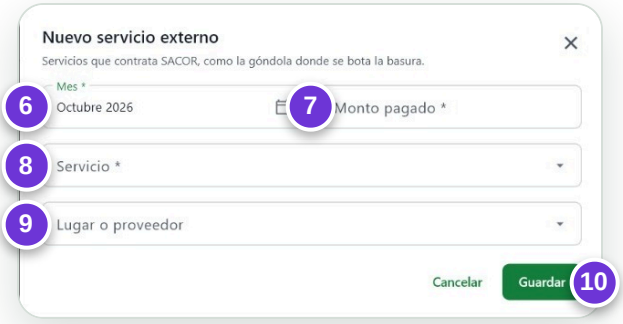

Task 7

Register external services

Services that SACOR hires, such as the gondola where the waste is disposed of.

1. **Summary** of spending per month.
2. **Exportar** (Export) or create a **Nuevo servicio** (New service).
3. Search for a service and filter by **month**.
4. The **total** adds up the services shown.
5. Edit or delete with the icons on each row.

New external service

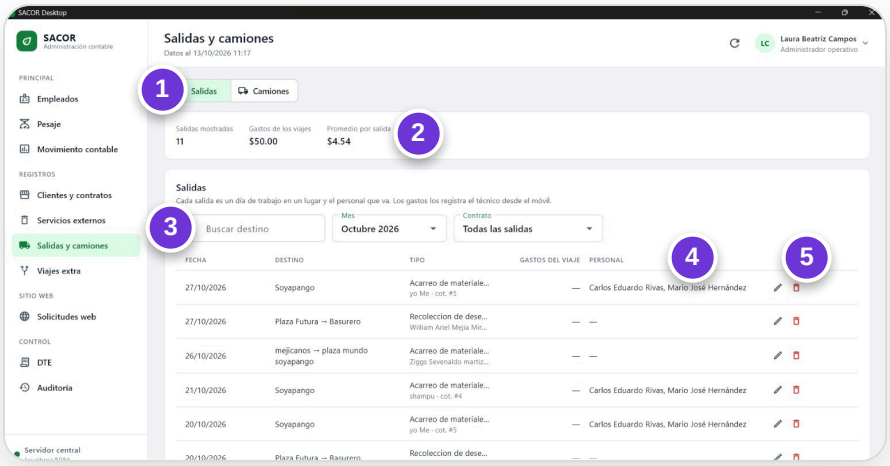

6. **Month** *(Mes)*.
7. **Amount paid** *(Monto pagado)*.
8. **Service** *(Servicio)*.
9. **Place or supplier** *(Lugar o proveedor)*.
10. Click **Guardar** (Save).

DESKTOP

Task 8

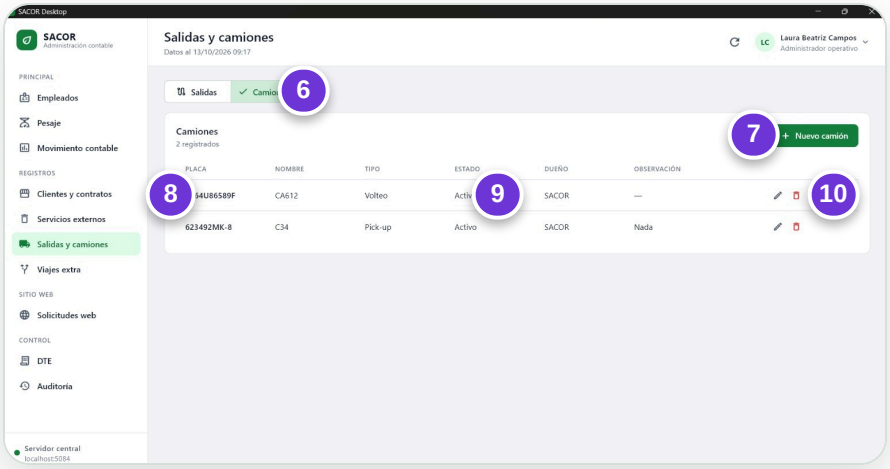

Manage trips and trucks

Each trip (salida) is a workday at a place, with the staff assigned to it. The technician records the expenses from the mobile app.

Trips

1. **Salidas** (Trips) tab.
2. **Summary**: trips shown, trip expenses and average per trip.
3. Search by **destination** and filter by month and contract.
4. **Staff** column of each trip.
5. Edit or delete a trip.

Trucks

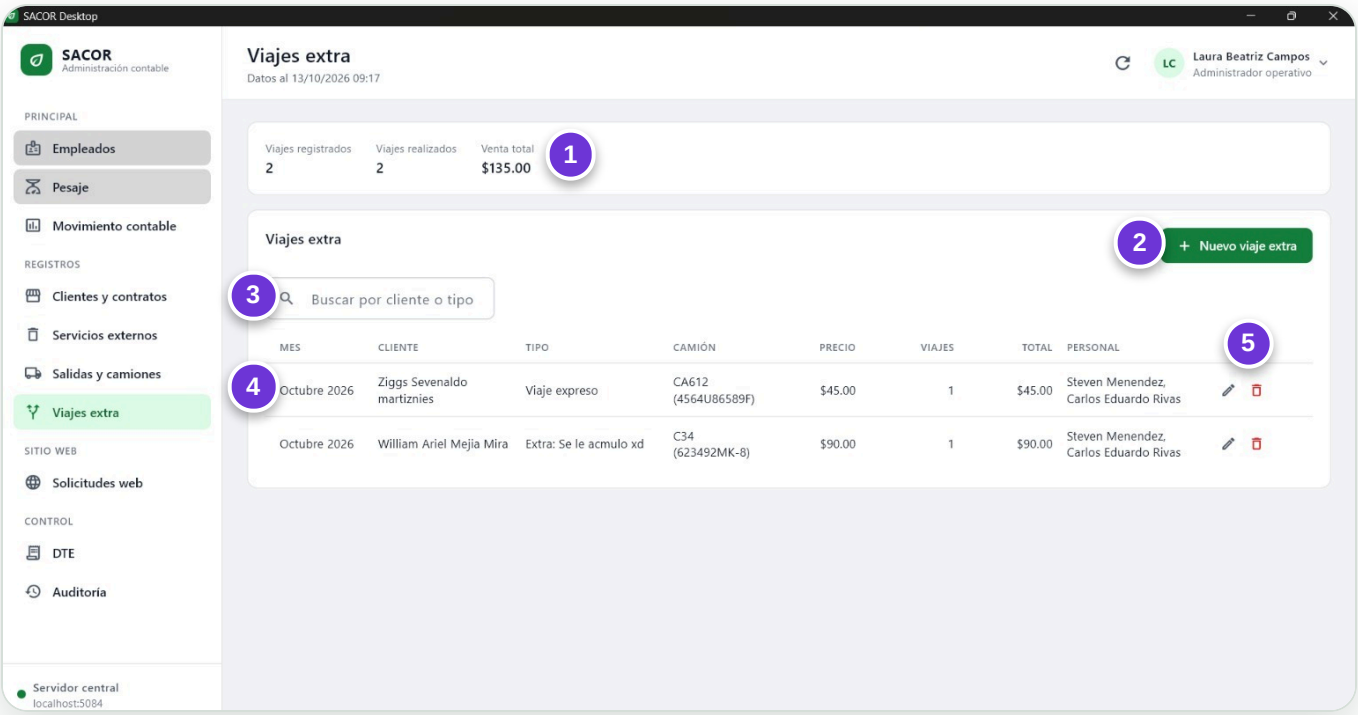

6. **Camiones** (Trucks) tab.
7. Click **Nuevo camión** (New truck).
8. Each truck shows its **license plate**, name and type.
9. **Status**, owner and notes.
10. Edit or delete a truck.

DESKTOP

Task 9

Register extra trips

Extra trips are unplanned trips for a contract that are billed separately.

1. **Summary**: registered trips, completed trips and total sales.
2. Click **Nuevo viaje extra** (New extra trip).
3. Search by **customer or type**.
4. Each row shows the month, customer, type, truck, price, trips, total and staff.
5. Edit or delete an extra trip.

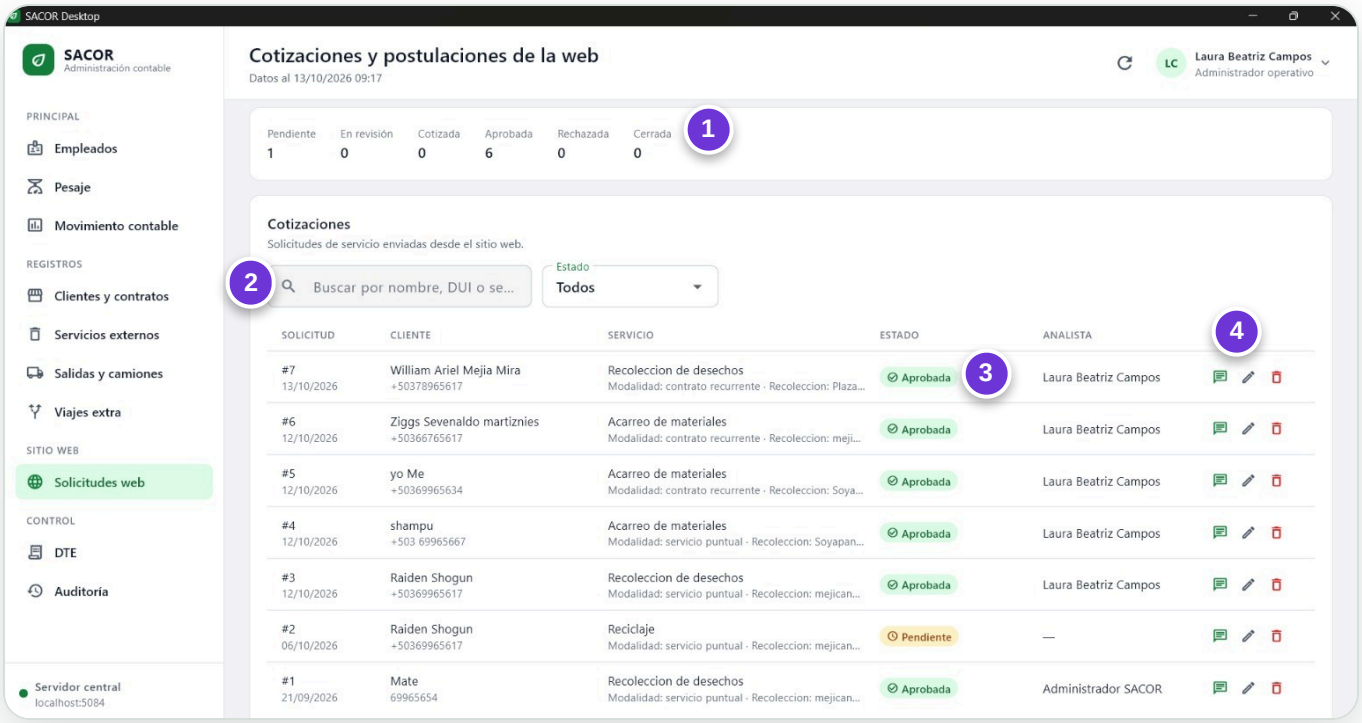

> **Note**
> The technical administrator can also create extra trips from the mobile app (Part 3 · Task 4, p. 18).

DESKTOP

Task 10

Handle website requests

Quotes and job applications sent from the website arrive here.

1. **Counters by status**: pending, under review, quoted, approved, rejected and closed.
2. Search by **name or DUI** and filter by status.
3. Each request shows its **status** and the analyst handling it.
4. Row icons: message, edit and delete.

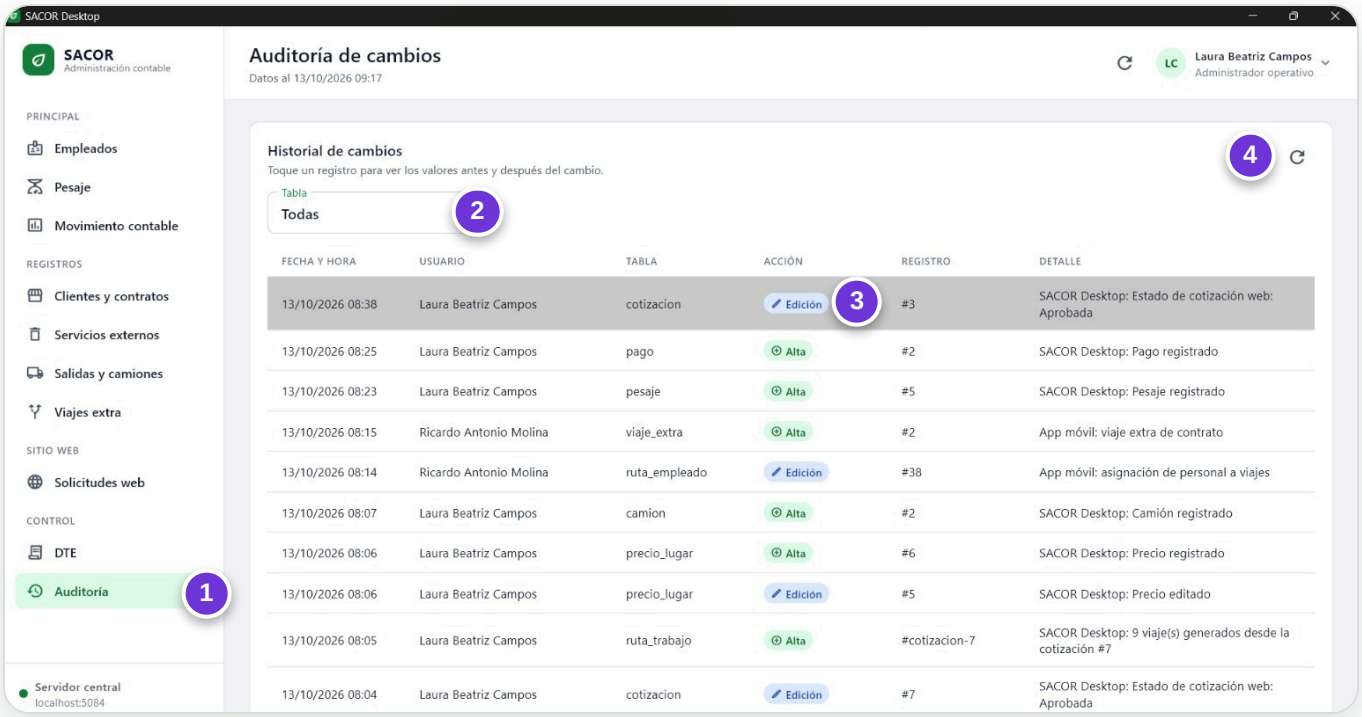

> **Link to the website**
> Each request corresponds to a form submitted in Part 4 (p. 24).

DESKTOP

Task 11

Review the change audit

The audit keeps the history of changes: who did what, when, and from which app.

1. In the menu, click **Auditoria** (Audit).
2. Filter by **table** *(Tabla)*.
3. The **action** shows whether it was a new record (Alta) or an edit (Edición); the detail says whether the change came from the desktop app or the mobile app.
4. Refresh the history.

> **Tip**
> Click a record to see the values before and after the change.

DESKTOP

PART 6

WhatsApp Assistant

WhatsApp chat

Request a quote at any time by chatting with the SACOR virtual assistant on WhatsApp.

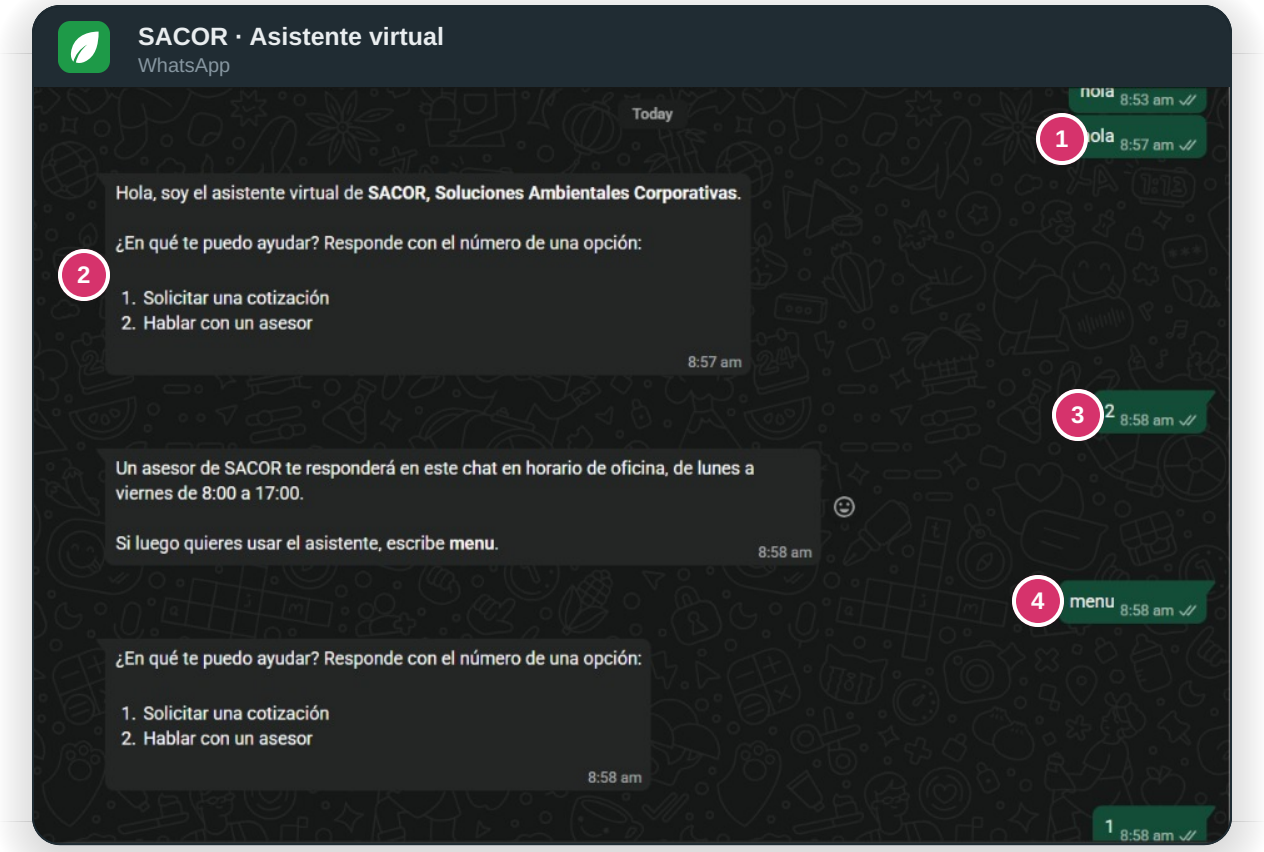

In this part you will learn to:

1. Start a chat with the assistant
2. Enter your contact details
3. Choose the service and the place
4. Add materials, date and details
5. Review and send your request

Task 1

Start a chat with the assistant

The SACOR virtual assistant answers on WhatsApp at any time and guides you to request a quote.

1. Send any message, for example **hola** (hello), to the SACOR WhatsApp number.
2. The assistant greets you and shows the menu. Reply **1** to request a quote.
3. Reply **2** to talk to an advisor. The assistant stops answering so a person can reply.
4. Type **menu** to go back to the assistant.

Tip

Type **cancelar** (cancel) at any moment to start over.

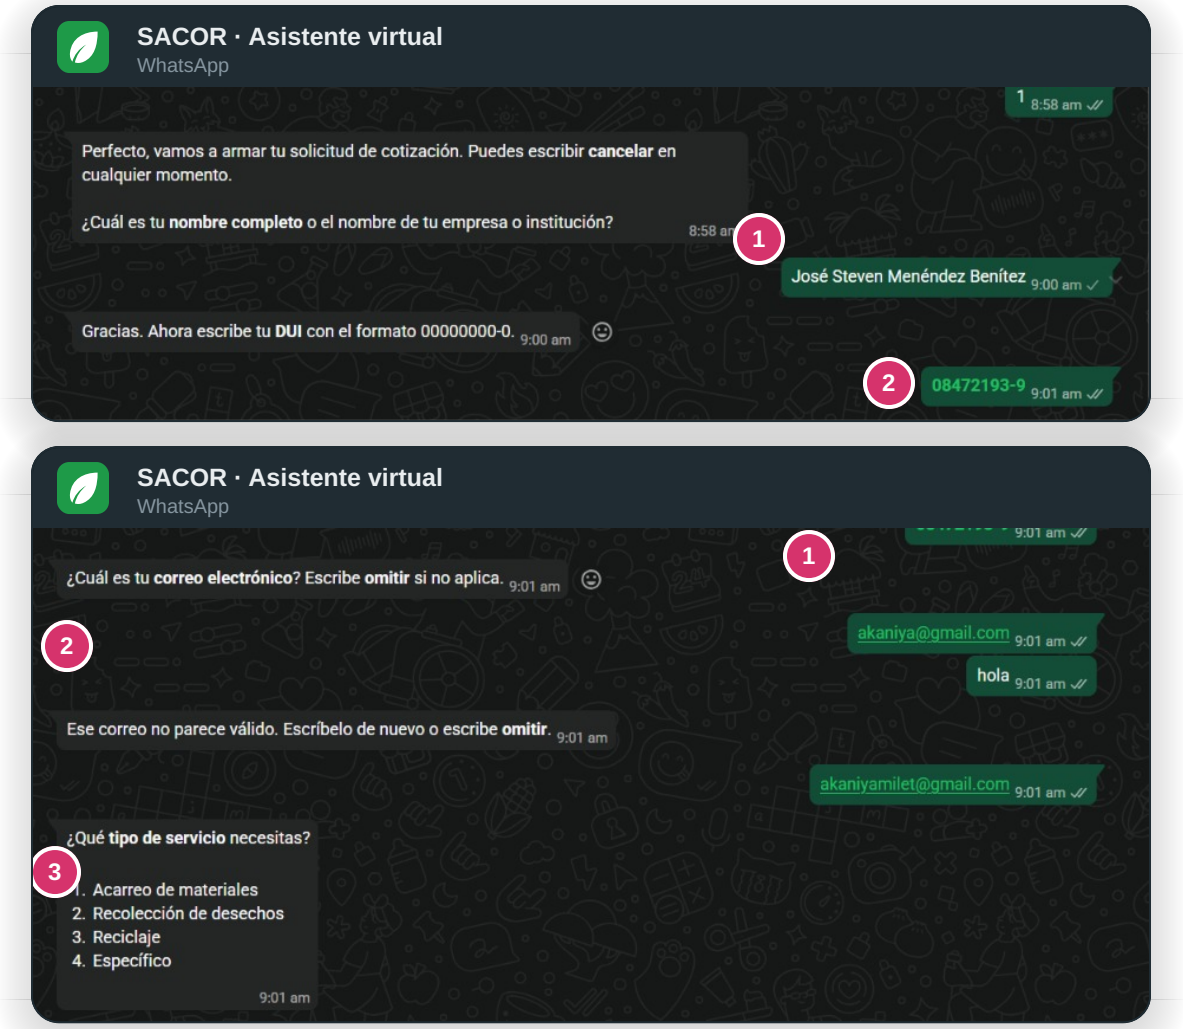

Note

Advisors reply in the same chat from Monday to Friday, 8:00 to 17:00.

Task 2

Enter your contact details

The assistant asks one question at a time. Answer each message to continue.

1. Write your **full name** or the name of your company or institution.
2. Write your **DUI** with the format 00000000-0.
3. Write your **email**, or type **omitir** (skip).
4. If a value is not valid, the assistant explains it and asks again.
5. Choose the **type of service** with its number.

Caution!
Check your DUI before sending it: it identifies you in all your requests.

Task 3

Choose the service and the place

Tell the assistant what kind of service you need and where.

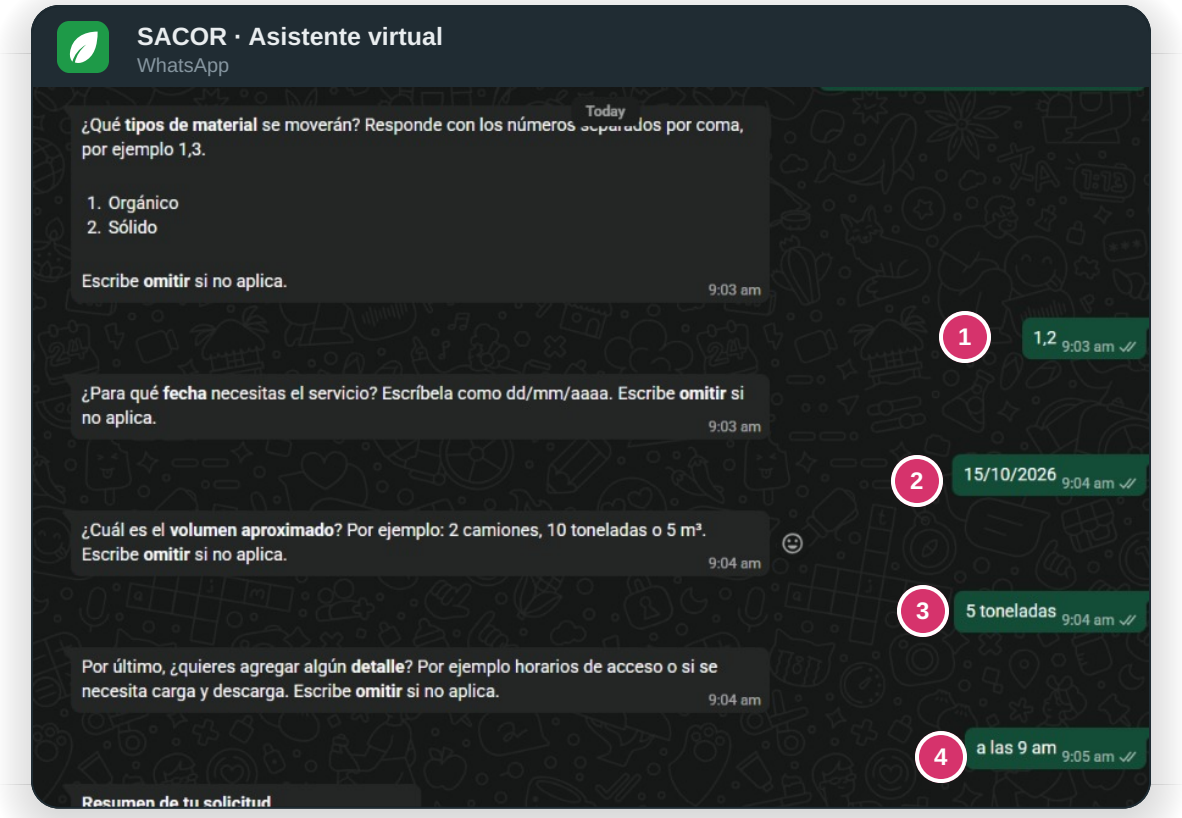

1. Reply with the number of the service: **Acarreo de materiales** (Material hauling), **Recolección de desechos** (Waste collection), **Reciclaje** (Recycling) or **Específico** (Specific).
2. Choose the modality: **1** one-time service or **2** recurring contract.
3. Write the **collection address** or municipality.

> **Note**
> For material hauling and specific services, the assistant also asks for the destination.

Task 4

Add materials, date and details

Complete the information about the materials and the date of the service.

1. Write the numbers of the **materials** separated by commas, for example 1,2.
2. Write the **date** with the format dd/mm/aaaa.
3. Write the approximate **volume** of the service.
4. Add **details** such as access times, or type **omitir** (skip).

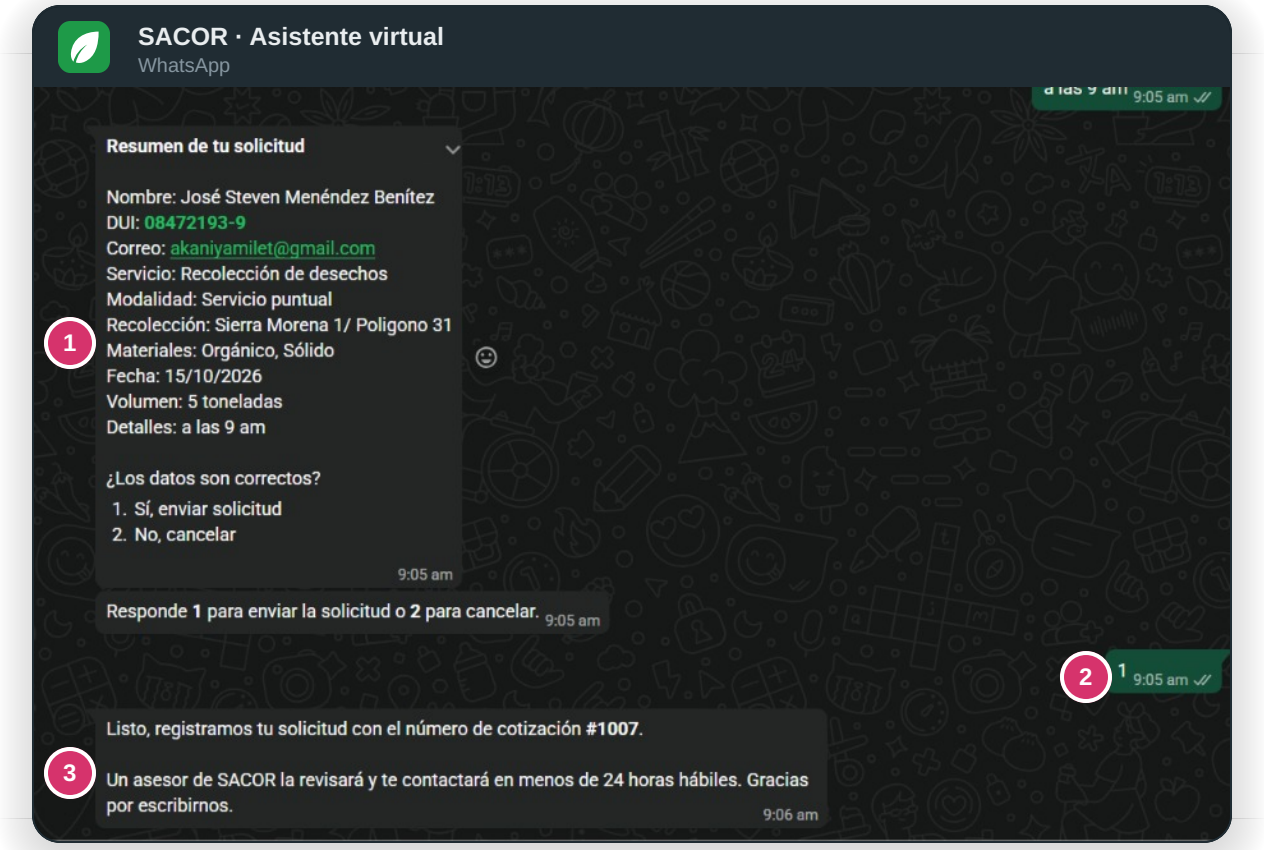

Recurring contract

Instead of the date and the volume, the assistant asks for the duration in months, the frequency of the trips and the start date.

Task 5

Review and send your request

Before sending, the assistant shows a summary of all your answers.

1. Check the **summary** with all your answers.
2. Reply `1` to send the request, or `2` to cancel it.
3. The assistant replies with your **quote number**.

Tip

Save your quote number: SACOR uses it when contacting you.

Link to the desktop app

Your request arrives at **Solicitudes web** (Web requests) marked **Origen: WhatsApp** (Part 5, p. 38).

Frequently asked questions

Quick solutions to the most common problems.

I don't have a code to sign in to the mobile app.

Ask your administrator for one. Access is for authorized staff only.

The app says «No tienes servicios asignados» (You have no assigned services).

You don't have a trip or service assigned yet. Ask the technical administrator to assign you in «Contratos y viajes».

I clocked in but I don't see it in the history.

Tap «Actualizar horarios» to reload the list.

A trip has no staff.

In «Contratos y viajes», use «Asignar a viajes sin personal» or «Cambiar personal» on that trip.

I sent a request on the website. When will I get an answer?

According to the page, SACOR replies in less than 24 business hours.

How do I know who changed a record?

In the desktop app, open «Auditoria»: it shows the date, user, table, action and detail of each change.

The desktop app doesn't show new data.

Click the refresh button at the top right. The bottom left shows the central server the app is connected to.

The profit is negative.

Expenses exceeded sales in the selected period. Check the period in «Movimiento contable».
